The individual phoning in sick, injured, or for whatever the reason may be, must contact a Team Leader as soon as possible to do so, prior to his/her scheduled shift. Where it is an impossibility to reach the plant prior to the shift, the Company agrees to receive the message with understanding. In any instance, if an employee fails to report for work without proper notification, he/she will be considered as absent without leave. In cases of long term absences, an employee must notify his/her immediate Team Leader at least twenty-four (24) hours in advance of

his/her return. Any employee who is absent for consecutive work days, equal to the days in their set, who cannot show a justifiable reason for such absence, shall forfeit all seniority rights. This does not interfere with the Company's right to discharge for proper cause.

If an employee is required to work more than two (2) hours of unscheduled overtime immediately following their scheduled shift, he/she will be provided with a meal allowance of fifteen dollars (\$15.00) and one half hour paid in lieu. Alternatively a meal will be provided with time to consume it. The meal allowance will be paid to the employee on the next direct deposit for the applicable pay period.

A meal, if requested, shall be furnished by and at the expense of the Company to an employee who is required to work more than two (2) hours after their regularly scheduled shift. If the required overtime continues, meals will be provided at recognized meal times, or as close to that time as can be conveniently arranged.

6.13 Training

When an employee is required to participate in Company sponsored training they will be paid as follows:

If the training is conducted on an employees' regular scheduled work day the employee will be made whole for that day.

If the training is conducted on an employees' scheduled day off, the employee will be paid for the time they spend in training, or as specified in Article 6.05 as a minimum. Weekly overtime will apply.

If the training scheduled for an employees' day off is canceled for reasons beyond the control of the Company and less than twenty-four (24) hours' notice is provided then the employee shall be entitled to pay as per Article 6.05.

- b) Travel is based on the time traveled in excess of the time the employee normally travels to and from their place of work.
- c) Travel on a scheduled work day will not result in a reduction of an employee's normal pay. At the same time, if the "pay for hours worked" meets or exceeds the employee's "normal pay" for the day, additional hours travelled will be paid at overtime rate.
- d) For travel there is no minimum amount of hours it is the actual number of hours travelled.

ARTICLE 7 - JOB POSTING

7.01 Procedure

- a) It is the Company policy to promote from within the ranks of the Company employees wherever possible. Should a vacancy occur in the work force covered by this Agreement, a notice outlining the required qualifications will be posted throughout the Mill for a period of eight (8) consecutive days to enable interested employees to apply for such posted jobs. If a General Holiday shutdown period occurs during the job posting time, then an extension for receipt of job bid applications will be made equal to the hours of the General Holiday shutdown.
- b) An employee who is offered a posted position is not eligible to bid on another vacancy for a period of six (6) months from the closing date of that originally posted job (whether or not the offer is accepted).
- c) An employee who accepts a posted position will not be eligible to re-bid for another vacancy for a

period of six (6) months from the time he/she took over the originally posted job.

- d) The successful applicant to a job bid will commence training in the new position no later than sixteen (16) days following the termination of the bid. In the event this is not reasonably possible, the plant committee will be advised when training will begin.

- f) The Company will give advance notification of anticipated apprenticeship starts and other positions which will become available as a result of retirements and planned increases in staffing.
- g) Positions to be posted will include Backup Positions and Posted Jobs and Temporary Posted Positions.

Posted Positions (permanent incumbent)

Once incumbent shift preference is satisfied incumbent positions will be filled by the Backup who has applied for the position and has the longest length of time in the Backup position. If there are no qualified Backups applying for the position or the position does not have a backup, then it is awarded to the senior employee applying for the position.

The Union recognizes the right of the Employer to fill the Posted job on an interim basis at their discretion pending the final results of the posting.

Backup Positions

Backup positions will be filled by the senior employee applying for the position. Backup Lead Hands will be selected as outlined in Article 21.03. Should there be no Backup Lead Hands who have applied for an incumbent position the selection process under Article 21.03 will apply.

Employees who require a ticket to function in their classification and/or are in the apprenticeship program will not be eligible to bid on non-ticketed Backup positions.

Only one Backup position can be held by an employee at any time.

An employee may not bid into a Backup position where the incumbent of that position is already his/her Backup.

An employee who is a Backup for a position will receive that rate of pay for that position while performing those duties.

Shift Backup Positions

If the successful applicant is not from the shift affected, then they will be required to change their shift and forfeit any incumbent position on the shift they are leaving.

Temporary Posting for Vacancies

In the event of a vacancy expected to be longer than sixteen (16) weeks, a Temporary Job Posting will be made.

Temporary postings for incumbent positions will be filled by displaced incumbents in order of seniority, then by the Backup who has applied for the positions and has the longest length of time in the Backup position.

Temporary postings for Backup positions will be filled by the senior employee on the crew affected, applying for the job.

The employee accepting the Temporary posting will be paid at the rate assigned to the Temporary position and will be returned to their previous job at the conclusion of the temporary posting.

Employees holding Temporary postings may give up the position on any anniversary of their acceptance of the position. The six (6) month ineligibility provision does not apply to employees who bid into a Temporary job posting.

- h) An employee who has been transferred or promoted from one job to another, shall have the privilege of returning to the job from which he/she was transferred or promoted within sixty (60) calendar days of the above dated commencement of transfer or promotion. The Company shall have the right to return the employee to the former job within a period of sixty (60) days of the date of commencement of the transfer or the promotion if the employee is not competent to do the job to which he/she was transferred or promoted.
- i) An employee who is on approved leave of absence or vacation shall, within three (3) working days of returning to work have the opportunity to bid for a job posted in his/her absence that closed within six (6) weeks prior to his/her return.
- j) If no suitable candidate is available in the plant who is currently an employee, then the Employer has the option of seeking a suitable candidate in the open market.

Re: Article 21.04 Severance Benefits

Employees indefinitely laid off because of mill closure or partial mill closure will be entitled to severance pay of eighty (80) hours straight time pay for each continuous year of service, and thereafter for partial years in increments of completed months of service with the Company. The total severance is not to exceed a maximum of two thousand and eighty hours (2080) pay.

For purposes of the application of Article 21.04 of the Collective Agreement, the Company and the Union agree that a layoff arising from a mill closure or a partial mill closure will be considered "indefinite" so as to give rise to severance benefits under this Article when the layoff exceeds 180 days.

When layoffs reach 180 days in duration the Company will offer severance benefits pursuant to this Article to employees. Employees offered severance pay may elect to receive severance immediately or may elect to postpone their receipt of severance until seniority runs out under Article 13.04.

Employees who have elected to postpone their severance payment may nonetheless advise the Company of their intention to receive pay within the next scheduled pay cycle.

When an Employee receives severance benefits from the Company under Article 21.04 their employment is deemed to be terminated, and all seniority and recall rights under the Collective Agreement are forfeited.

The Company and the Union agree that this Letter of Understanding forms part of the Collective Agreement currently in effect between the Company and the Union.

OVERTIME AGREEMENT
Edson OSB Overtime Distribution System

Overtime System Objectives

The Overtime System has been designed to meet the following objectives:

1. Provide a system that supports an injury free workforce.
2. Provide a system that equitably distributes overtime and that employees believe is fair.
3. Provide a system that is easy to administer and can be managed error free.
4. Total overtime hours are tracked for each employee.

General Guidelines

1. Overtime Opportunities are split into 3 types:
 - a. Unplanned (unscheduled) Overtime: max one (1) shift blocks e.g.: To cover for absent or ill employees, short notice vacation or floater coverage.
 - b. Planned (scheduled) Overtime: max two (2) shift blocks e.g.: vacation coverage, short term disability, maintenance days.
 - c. Obligated Overtime: e.g.: Mill sponsored meetings or training HIT, OES, and ERT.
2. A production O.T. opportunity does not exist until all crew resources have been exhausted.

3. Production overtime will be offered to qualified production employees competent to perform the work first, then to competent qualified maintenance employees. Maintenance overtime will be offered to qualified maintenance employees competent to perform the work first, then be offered to qualified production employees.
4. For the purposes of this agreement the incumbents in the Oiler and Shipper/Receiver positions are considered production people for OT eligibility. Should the present incumbents change this clause will be reviewed with the Labour Management group.
5. Total overtime hours are tracked for each employee. A weekly update is kept of overtime hours that employees have worked.
6. The Team-Leader will get an updated list Tuesday morning of the employee's total overtime worked.
7. Overtime opportunities will be provided starting from the top of the list. Seniority starts the list at the beginning of each quarter. Seniority will be the tie breaker.
8. The unplanned opportunities (up to 7 days in advance of the opportunity) will be provided in one shift blocks. Once a person has accepted one shift the next eligible person on the shift will be asked for the next "one shift" block. This sequence will continue on through the OT priority list.
9. When circumstances appear at short notice that create an overtime opportunity (e.g., short notice vacation, training course etc.) the opportunity exists to fill 2 or more days at the time of notification or at the earliest opportunity without posting. These opportunities will be filled using the overtime book and at the time of filling these, the shop steward will be present to verify selections. This is so the Team Leader can give definite short notice answer to these requests.

10. The list of employees that is produced each week will be sorted from the people who have worked the least amount of overtime hours quarter to date (top of the list) to the employees that have worked the most. If the employees are available for overtime, then they must sign the overtime book in the Team Leaders office. After utilizing the book for overtime first, the employer may call any available support in.
11. Planned overtime will be posted when possible, to accommodate the necessary crews available to respond. Even though this planned OT opportunity may be posted, you must still sign the OT book.
12. Planned overtime opportunities may be scheduled in up to “2 shift” blocks.
13. A planned OT opportunity must be posted a minimum of 7 days and up to a maximum of 60 days in advance and must stay posted for 5 days. These planned OT postings must indicate the date the posting will be removed and filled. On that date the OT opportunity will be filled based on that week’s OT list. People will be notified and verified.
14. Obligated overtime will be tracked against total overtime hours. e.g.: ERT, OES, Training, Miscellaneous team projects/programs (WHMIS, Confined Space, HIT, Sawline Improvement Team etc.)
15. Employees hired within the present quarter will be treated as the least eligible for overtime until the next quarter begins. Their OT opportunities will be based on seniority until a new quarter begins.
16. Refusals and missed calls will be documented in the overtime book.

17. Anyone who does not want to be offered overtime will need to provide his or her Team Leader a written and signed request, copy to Union committee also. This means that you will not be called for any overtime opportunities that are available unless there is an emergency. This request will be granted until the employee requests in writing that their status be changed.

**EXCEPT IN AN EMERGENCY EMPLOYEES
WILL NOT BE ASKED TO WORK OVERTIME
IF AS A RESULT:**

1. They have less than 8 hours rest between shifts.
2. They would end up working more than 6 shifts in one week.
3. They will work more than 12 hours in a 24-hour period.
4. They would be working a shift that may have previously been arranged a “shift exchange” for.
