Examples of when we can help

Boiler breakdown

Our insured has a small family take-away business, and on a week day in the middle of winter the insured's boiler which services the business broke down. The business is usually very busy at the weekends and to avoid customers waiting in the cold it needed to be repaired immediately. Our insured contacted us and we immediately appointed a contractor. The contractor attended the same day and ordered the part the next day. The part was fitted to the boiler on the day of delivery and warmth was restored to the customer waiting area.

Toilet blockage

Our insured's customer toilet unit was blocked and when flushed this caused an overflow. After contacting us a contractor was appointed to clear the blockage using rodding and jetting techniques. The toilet was left fully functional.

Security

Following a burglary which had left our insured's business with a smashed front window and jeopardising security, they contacted us and we immediately arranged for a contractor to board up the broken window.

Help is available when you need it most

When we cannot help

We promise to respond quickly where help is necessary to prevent or reduce damage to your premises and its contents or to make it safe and secure for trading with customers. However, ARAG Business Emergency Solutions is not a maintenance contract and will not meet the demands and needs of businesses seeking help in a situation that could have been foreseen or, in response to normal wear and tear of facilities or where immediate help is not critical.

The Key Facts table which follows provides the information you need to know before deciding whether to purchase cover. Please read it carefully. If you would like any further information please ask to see a copy of the policy wording which provides full details of our terms and conditions.

Important information

Claims procedure

In the event of an emergency:

1. please telephone the number shown in your policy wording (lines are open 24 hours a day, 365 days a year) as soon as possible, providing us with your name, the address of your premises and the nature of the problem
2. we will record your details and then decide on the best course of action to limit your loss and/or repair the damage. If the incident relates to an emergency covered under this policy, we will instruct a member of our emergency contractor network. Please note that poor weather conditions or remote locations may affect normal standards of service
3. if the incident is not covered, we can still provide assistance which will be at your own cost. This may also be an event covered by your business or home business insurance policy and we will seek to advise you accordingly
4. it is important you notify us as soon as possible of any claim, and do not call out your own contractors as we will not pay their costs and it could stop your claim being covered.
5. you must report any major emergency which could result in serious damage to the premises or injury, to the Emergency Services or the company that supplies the service

6. your call will be recorded for training and security purposes and will be answered as soon as possible.

What happens if I change my mind after taking out the policy?

The policy provides you with a 14 day reflection period in which to decide whether you wish to continue. Cancellation is fully explained in condition 6 of the policy wording.

What happens if the insurer cannot meet its liabilities?

Brit Syndicate 2987 at Lloyd's is covered by the Financial Services Compensation Scheme (FSCS). You may be entitled to compensation of up to 90% of the cost of your claim in the unlikely event that the insurer cannot meet its obligations. Further information about compensation scheme arrangements is available from the FSCS.
