

“Arc Legal’s approach has been refreshing and truly reflects our needs and those of our customers.”

Arthur J Gallagher

Commercial

Arc Legal Assistance provides a comprehensive commercial legal expenses policy.

To ensure small to medium sized businesses are fully supported and protected against key legal risks, the areas of cover we provide include:-

- Employment disputes
- Contract disputes
- Tax
- Legal defence
- Property protection
- Statutory licence protection
- Data protection

We are able to offer additional legal services geared to personal as well as commercial legal issues which are applicable for small business operators and sole traders.

We are now also able to offer access to our Commercial Legal Expenses Policy System Legal for Business. This system allows brokers to get an instant quotation for their commercial customers, and then purchase and manage the policy throughout its duration, as well as the entire renewal process.

The focus of our commercial product extends beyond the insured elements to encompass Total Legal - a broader legal services proposition provided in conjunction with our solicitors. This encourages customers to use the solicitors for all their legal requirements providing clients with an extremely versatile and accessible range of services.
