## Overview

Interest in health and nutrition-related products is on the rise, making nutraceuticals an exciting and emerging industry. But just like any company that manufactures or distributes products, nutraceutical companies are exposed to a range of risks, from products causing bodily injury to products being recalled for various reasons. Our policy is designed for companies working in this area, combining third party liability and products liability with product recall cover.

## Coverage highlights

### Products liability

Any company that designs, manufactures or supplies consumable products runs the risk of these products causing bodily injury to the end customer. We aim to relieve these concerns by including a dedicated products liability insuring clause as part of this package policy.

### Product recall

The safety of products is central to the long-term success of any business, but products can be unintentionally compromised. That's why we include cover for product recall costs arising from safety critical errors made during production, or where a government authority has ordered or suggests a product be recalled from market.

### Malicious product tamper and extortion

Our policy provides cover for recall costs following malicious tampering or alteration by an employee that has or is expected to cause a bodily injury, as well as bodily injury that may result from a cyber attack. In addition, cover is provided for the reasonable sums you may incur as a result of product extortion demands made as part of a threat to tamper with your products wherever they are in the supply chain.

### Transit of stock

As a seller of products your stock will frequently be moved from your site and that of your customers. Our policy not only covers stock at fixed locations, but also while in transit, for both material damage and business interruption.

### Business interruption

Our cover is designed to protect businesses against loss of income so they can continue paying staff whilst providing them with the necessary financial resources to continue operating following an unexpected interruption, such as insured damage to property.

### Worldwide jurisdiction

Our policy provides worldwide jurisdiction as standard to ensure your protection continues as your business grows.

### Excess capacity

If you are seeking further peace of mind by increasing a policy limit, we are happy to sit XS of a third party policy on a follow form basis.
