

PERSONAL PROTECTION INSURANCE

Sports

Ironshore have designed a tailored product that addresses the modern day threat of physical violence and its associated risks to sporting organisations, professional athletes and their families.

Recent events in the world of sport have highlighted the risks that can face anyone today, no matter who you are or where you live. Indeed, with the modern day use of social media and openly publicised information on the internet, the risk to professional athletes and the ones they love has increased markedly in the last 10 years.

Now, more than ever, it is important to have a comprehensive package of both insurance coverage and a professional crisis management service to respond to these risks. Whether you are a sports organisation looking to protect your valuable assets or a professional athlete at home, travelling in competition or with your family on vacation you could be at risk.
