

# Onshore Property And Energy

Starr Onshore, Property and Energy, as a market leader, works with international clients to provide specialised insurance coverages to suit their needs.

We build long-term relationships with industrial companies, insurers, and broking houses, developing trust and understanding throughout our continuous interactions.

Our underwriting team offers significant breadth and depth of experience, with a proactive approach and understanding of the ever-changing risk environment of our customers' industries. In order to mitigate the risks faced by our clients, we offer a variety of products that respond in the event of loss or damage to their physical assets. This, in turn, provides the required security for organisations to continue succeeding at the highest level.

As part of a comprehensive and forward-looking risk management service, Starr Onshore Energy delivers demonstrable and strategic value to risk managers and brokers.
