

## A new Builder's Risk coverage form — comprehensive and flexible coverage.

CNA is introducing a new Builder's Risk form that features new and more comprehensive coverages to meet the needs of your clients. This offers coverage for buildings in the course of construction, existing buildings, temporary structures, property at a location other than a job site, property in transit, soft costs and operational testing.

### New and More Comprehensive Coverages Can Further Enhance Your Clients' Protection, including:

- Inflation Guard — covers increases to rebuild existing values due to inflated costs of labour and materials due to a construction delay as a result of covered loss or damage.
- Arson & Crime Reward Payments
- Debris Removal
- Fire Department Service Charge and Extinguishing Expense
- Valuable Papers & Records
- Loss Adjustment Expense
