Product brochure  
Canada

## Overview

Oil and gas contractors face a unique combination of risks that many traditional insurance policies do not adequately address. This is where our product comes in. This comprehensive policy provides oil and gas contractors who spend less than 20% of their time doing manual work with all their major insurances in one, simple package. We offer worldwide jurisdiction as standard, and can cover contractors with 100% US revenues.

## Coverage highlights

### Property damage

We recognize that property insurance for oil & gas professionals needs to be comprehensive in order to cover the wide range of equipment utilized and diverse places where they ply their trade. Our policy includes cover for damages to premises, contents, computers and stock located in the workplace, as well as laptops and mobile equipment away from the premises including whilst on site.

### Business interruption

Not only does our policy cover the costs associated with the immediate loss of business income following a disruption, but we can also pay for the extra expense and continuing payroll costs associated with keeping your business running. Our policy typically covers a period of 12 months but can be tailored to specific circumstances.

### Easy-to-understand policy

No one wants to read 100 pages of incoherent insurance jargon. That's why our policy wording is clear and concise, so you know exactly what's covered. Although it is less than 10 pages long, you can rest assured that it offers some of the broadest and most robust cover on the market.

### Comprehensive errors & omissions cover

Full errors and omissions cover including professional liability, breach of contract, libel, slander and defamation, loss of documents and the payment of withheld fees.

### Full pollution liability

This feature covers both sudden and accidental pollution, and insures for bodily injury and property damage as a direct result of pollution or contamination.

### General liability

Our policy includes commercial general liability including products and completed operations, tenants' legal liability, non-owned and hired automotive costs and medical expenses.

### Exceptional service levels

Obtaining cover can be a lengthy and time-consuming process. Our experienced team, however, are able to quote and bind policies instantaneously as long as we have all the information we need.
