

360 Landlords. Cover for residential tenant related risks.

360 Landlords was created as a direct response from Brokers looking for a specialist insurance solution for their domestic property-owning clients. Clients that are looking to be protected against potential financial loss from letting their properties. Risks that are in addition to the normal building & contents exposures such as damage caused by the tenants, loss of rental income and the possibility of rental default.

Often these policies are low cost but high volume, so it was critical that the agency was developed with a strong commitment to electronic delivery, backed by a team of professional underwriters that could manage a referral when the computer says no.
