Entity Medical Malpractice

A comprehensive policy covering a broad mix of exposures

Healthcare entities will encounter different exposures and challenges as they grow over time. How these risks are identified and managed can be the ultimate difference between success and failure.

Our packaged medical malpractice product has multiple optional sections providing cover for:

- ✓ Entity Medical Malpractice
- ✓ Errors & Omissions
- ✓ Public Liability
- ✓ Product Liability

Product service features:

- ✓ 24/7 Medico-legal advice

The importance of entity medical malpractice

Medical practices interact with patients and support practitioners and ancillary services. Practice protocols, staff errors or system failures can create or contribute to poor patient outcomes, exposing the entity to legal action.

Services and equipment provided to doctors who rent rooms

Administration errors made by employees including nurses and practice staff

Failure of practice protocols including triaging, scheduling and recalling patients

Handling of personal information and patient records resulting in breaches of privacy

Medical Practitioner Professional Indemnity Insurance

Tego offers competitive premiums, unparalleled quality of cover and 24/7 support backed by Australia's top medico-legal advisers.

Our deep understanding of the medical profession has enabled us to provide tailored cover with more choice and greater flexibility, so your clients can practice with confidence.

What our customers say

“Tego tailored my indemnity policy to my actual practice. Not only was Tego’s policy equal to the best policies on the market in terms of cover and facilities, it was significantly more affordable; more importantly, it was reflective of my actual practice.”

Dr. David Moore, Obstetrician, Gynaecologist & Fertility Specialist

Real life savings example:

General Surgeon – Female, VIC, \$420,000 gross private billings

WAS PAYING **\$19,970 p.a.**

SWITCHED TO TEGO,
NOW PAYING **\$13,212 p.a.**

**SAVED
\$6,758
BY SWITCHING**

Comparisons are real, made for the most recent renewal period, each for one genuine competitor product only, and current as at January 2021.

Allied and Emerging Healthcare

Recent developments in the Aged Care sector, the roll out of the NDIS, regulatory reform, and the ongoing impact of COVID-19 are challenging the status quo of the healthcare sector.

This evolving landscape needs a stable insurance partner that understand the unique, fast-changing nature of treatments, technology and regulatory requirements in healthcare.
