> Basis of settlement

Crop(s)

Claims for Crop(s) are calculated by Paddock.

The amount of any claim will be calculated by multiplying the Net Loss Percentage by the Sum Insured.

Claim Example (hail)	
Assumptions	
Sum Insured	\$50,000
Gross loss	20%
Percentage Excess	5%
Calculation	
Net Loss Percentage	15% (ie. 20%-5%)
Claim Payment	\$7,500 (ie. 15% of \$50,000)

We will not pay for any loss until all premium has been paid.

Harvested Crop(s) and transit

The amount of any claim will be calculated by multiplying the quantity of grain or Baled Hay lost or destroyed by the Insured Value less the Excess.

We will not pay for any loss until all premium has been paid.

> Exclusions

We will not pay for:

1. loss or damage to hay or Baled Hay, unless the Crop is noted as a hay Crop on Your Schedule; or
2. loss of quality, nutritional value, germination ability, contamination or grade of seed, hay, Baled Hay, Straw or Stubble; even if it is caused by an Insured Event; or
3. consequential loss of any kind; or
4. loss or damage to Crops that are grazed after the most advanced part of the Crop has reached first jointing; or
5. loss of Potential Yield caused by weeds or pests, regardless of whether the weeds or pests occur as a result of an Insured Event; or
6. loss or damage to Crop(s) caused by wind or water, even if the water results from melting hail; or
7. loss of Potential Yield caused by disease to the growing Crop(s) unless the disease is caused directly by an Insured Event and the disease did not exist in the Crop(s) prior to the Insured Event; or
8. rejection of the Crop by a buyer or delivery site even if it is caused by an Insured Event; or
9. loss of Potential Yield caused by a fire which results from You or Your representative harvesting the Crop in breach of any law, regulation, by-law or ordinance (e.g. harvesting on a harvest ban day); or

› Claims conditions (continued)

Appointment of loss adjuster

Where We identify that Your claim needs to be assessed, We will appoint the loss adjuster to evaluate Your claim under this policy. You must:

1. give Us or the loss adjuster free access to Your crops;
2. provide necessary documentation requested by Us or the loss adjuster, including a map of Your property indicating the Paddocks which have been damaged; and
3. accompany the loss adjuster, or appoint someone to accompany the loss adjuster on Your behalf.

The loss adjuster may make recommendations with regards to Your claim. However, We reserve the right to decide whether the loss is covered under this policy and the amount of the claim settlement.

Claim declaration

In the event of a claim, You may be required to complete a harvest declaration which shows the number of tonnes harvested for each damaged Crop.

You must also provide Us with any information We require to verify the harvested yields, including Crop records, yield monitor output or grain delivery receipts.

If Your Crop(s) are ready for harvest

If the loss or damage occurs to Crop(s) that are ready for harvest, You may harvest the Crop(s) providing You:

1. leave five sample areas that are approximately ten metres long and ten metres wide in every forty hectares of Crop. These samples should be representative of the area and should not include areas of poor growth, trees, fence lines, gateways or areas with poor drainage.
2. leave the entire Standing Straw/Stubble until it has been inspected by the loss adjuster. It must not be grazed, cultivated, cut or interfered with in any way until the claim has been assessed.

After Your claim is made

After We have paid a claim under this policy, We have the right to take over any legal right of recovery which You have. If We do this, it will be for Our benefit and at Our expense. You must not do anything that prevents Us from doing this and You must give Us any information or assistance We require.

If anybody compensates You for loss, damage or destruction to Crop after We have paid a claim for the Crop, You must reimburse Us for that payment. You must do this as soon as the compensation is made.

› General conditions

If You do not follow these conditions, We may reduce the size of a claim or charge an additional premium to reflect the extent to which Our interests have been prejudiced.

Alterations to cover

Where changes have been made to Your insurance cover the following will apply:

1. Prior to the Final Revision Date, any increase to Your Insured Value or Area will take effect 48 hours after 9am local time on the Alteration Date. Any decrease to Your Insured Value or Area will take effect immediately on the Alteration Date.
2. On or after the Final Revision Date, where changes to Your Insured Yield, Insured Value or Area result in an increase in Sum Insured, the increased Sum Insured will take effect 48 hours after 9am local time on the Alteration Date. Where changes to Your Insured Yield, Insured Value or Area result in a decrease in Sum Insured, the decreased Sum Insured will take effect immediately on the Alteration Date.

Care and protection

Reasonable care must be taken to ensure the protection and preservation of the Crop(s) at all times. All Crop(s) must be harvested as soon as possible and without undue delay.

If harvest is delayed for an unreasonable period of time, the Crop will be considered abandoned and no claim will be payable.

Cancelling the policy

By You

You may cancel the policy by writing to Us. You will still be required to pay the full premium if You cancel the policy.

By Us

We have a right to cancel this policy under certain circumstances. If We cancel Your policy, We will inform You in writing and refund all premium You have paid (or agreed to pay) Us for the time remaining on the policy.

Crop failure

If a Crop fails due to seasonal conditions, We will allow You to cancel the cover, providing You notify Us of the crop failure prior to the Final Revision Date and We agree that the crop has failed due to seasonal conditions. No premium will be charged on the failed Crop.

The Insured Yield and premium will not be reduced if We are advised of the Crop failure after the Final Revision Date.

Insured Yield and Insured Value revision

Insured Yield, Potential Yield and Insured Value apply per Paddock. Your Schedule shows the Insured Yield and Insured Value for each Crop. Subject to Our approval, You may amend the Insured Yield or Insured Value at any time up until the Final Revision Date.

You cannot amend the Insured Yield or Insured Value after an Insured Event has occurred. If an Insured Event has occurred, the claim will be calculated in accordance with the cover in place at the time of the Insured Event.

Where an Insured Event occurs prior to or on the Final Revision Date and We agree to accept a reduction to the Insured Value, the reduction will be applied to all Crops of the same type, including those for which there is a claim.

Paddock

Each paddock to be insured must be listed separately on Your Schedule in accordance with the definition of Paddock.

Premium payment

The amount of premium You are required to pay will be calculated on the Final Revision Date by applying the rate to the Sum Insured. Payment is required by the date specified on the invoice.

> General conditions (continued)

Underinsurance

Unless specified on Your Schedule, if the total actual area of crop grown and/or sharefarmed by You is found to be greater than the total of the insured Area(s) and We are unable to clearly identify from Your Schedule which crops are insured and not insured, all losses will be reduced in accordance with the proportion the total of the insured Area(s) represent of the total actual area grown and/or sharefarmed by You.

Example

Assumptions

Total actual area	1,000ha
Total of the insured Area(s)	500ha
Yield	1.0 tonne/ha
Insured Value	\$200 per tonne
Insured Percentage	100%
Area damaged	75ha
Net loss Percentage	10%

Calculation

Loss	\$1,500 (i.e. 1.0 tonne/ha x \$200 per tonne x 100% x 75ha x 10%)
Claim payable	\$750 (i.e. \$1,500 x 500ha/1,000ha)

› Definitions

Percentage Insured

Means the percentage listed on Your Schedule. It reflects the proportion of the Crop to be insured.

Potential Yield

Means the average tonnes per hectare that would have been harvested from the Crop if the Insured Event had not occurred.

Unless Your Crop is listed as a hay Crop on Your Schedule, the Potential Yield will be the yield of grain. Where the Crop is listed as a hay Crop on Your Schedule, the Potential Yield will be the yield of dry matter.

The Potential Yield will be determined by a loss adjuster when a reasonable yield estimate can be made, but not before the Final Revision Date. The Potential Yield will take into account all factors affecting the growth of the Crop including factors which take place subsequent to the Insured Event.
