Target Market for Specified Items in Transit Insurance PDS

Who is this product intended for?

The product is intended to provide cover for an Australian individual or business when sending specified items (other than single transits, livestock or home removals such as moving house) anywhere within Australia.

Cover is provided on an annual basis for loss or damage arising from defined events such as fire, explosion, lighting, flood or theft.

It is designed for customers to choose the appropriate cover types and options.

The product contains different cover benefits depending on the selected cover type and has a range of specified covers as well as optional covers that may be available to customers at a varied cost.

Customers are expected to be able to pay the premium, including through premium funding, and pay the excess, or an equivalent reduction in claim payments, in the event of a claim. Customers may need to bear the cost of upfront payments for claims before being reimbursed in the limited circumstances where we don't cover losses upfront.

Customers are intended to arrange cover through licensed insurance brokers or advisors.
