

Children's Aid Societies

Child Welfare systems in Canada have been established by provincial and territorial governments to provide services that supplement or substitute for parental care and supervision. We recognize that these types of risks have unique exposures. Intact Public Entities has, for over 25 years, delivered Children's Aid Societies with the most comprehensive insurance program in the market place.

Risk Mitigation

Our risk management program goes above and beyond to help you not only prevent losses from occurring but also from reoccurring. We begin the process with an in-depth historical analysis of your claims to provide you with an understanding of the types of claims that have occurred. We use this analysis as the foundation to tailor a risk mitigation program that addresses your agency's specific risks and challenges. All of our risk management services are complimentary.

Claims Management

When a claim occurs, you want fast service, fair representation and an experienced team looking out for your best interests. The Intact Public Entities' claims team has expertise handling claims for Children's Aid Societies.
