

Reasons to Buy: AIG UK Chemical Insurance

AIG's UK Chemical division offers clients what they need most: deep understanding of their industry, environment and operations, extensive and specialised expertise, innovative solutions, superior loss control capabilities, responsive claims handling, substantial insurance capacity and a truly global reach.

Core Capabilities

We are a leader in the underwriting of Chemical risks for over 40 years and have developed long lasting relationships with many of our clients worldwide who have benefited from our following core capabilities:

Chemical occupancies identified from the SIC codes sheet overleaf

\$300 million capacity available

Ability to front for large global programs including captives

Ability to write globally

Significant worldwide CAT capacity

Market leading service agreements

AIG Claims Promise

The AIG Energy Claims Promise affirms that our dedicated team of claims experts will mobilise in rapid response to a covered event and, after coverage is confirmed, will advance our policyholders up to 50% of an agreed material damage loss estimate within 7 days, giving them the immediate working funds they need for damages, repairs, clean-up costs and extra expenses.

Working with AIG

To unlock and get the most out of our outstanding underwriting expertise and capabilities we have outlined the key requirements which are considered with each risk.

- Recent in depth engineering survey reports of the top locations
- Operational Risks only
- At least 5 years loss history
- Risk quality will be the driver for risk selection
