

Renewables Insurance

AIG's Renewables team offers a specialized suite of insurance solutions tailored to pivotal occupancies within the renewable energy sector.

With extensive claims and engineering expertise, AIG provides quality risk management solutions and multinational captive fronting services. We underwrite construction through to operational risks, targeting those which are key to the energy industry's transition to greener energy production. This includes Photovoltaic (PV) Solar, Onshore and Offshore Wind and Battery Energy Storage (BESS).
