HOW ANV IS DIFFERENT

Operating as an MGA, the team is backed by both the capital, underwriting insight and services support of AmTrust Financial Services Group. A key area of focus for the team is to provide underwriting solutions for risks where standard models cannot be easily applied and a more hands-on and solution oriented underwriting approach is needed.

ANV's financial lines portfolio is based around risk selectivity with strong oversight and internal accountability. Our approach focuses on due diligence and analysis in order to continue to provide a solid underwriting platform providing valued and sustainable results for all stakeholders.

Across all ANV lines, our goal is to be engaged, collaborative and committed underwriters to both these unique lines of business as well as the brokers and insureds who rely upon them. We look to earn the trust and support each day from our partners by providing effective risk solutions and superior service at fair prices. Company executives and risk managers operate in an economic and legal climate in an everchanging world, where they face industry consolidation (mergers & acquisitions); ever increasing regulation, solvency capital demands; corporate governance challenges; shareholder activism; emerging risks; and the necessity to embrace, and manage, technology and social media. Demand for individual insurance solutions designed to address these exposures has never been greater and ANV aims to become the insurance partner of choice. ANV is part of the Am Trust Financial Services Group, a multinational insurance holding company headquartered in New York City. With extensive underwriting experience and a prestigious “A-” (Excellent) Financial Size XIV rating from A. M. Best. AmTrust has a reputation as an innovative, technology-driven insurance company. AmTrust's commitment to excellence is the common thread connecting each of the company's businesses.
