Our Global Presence

OUR STORY

As a premier Managing General Agent, Specialty MGA brings together top-tier industry experts to deliver enhanced capacity across specialty lines and complex risks.

We offer a comprehensive suite of services across all territories, supported by A-rated security and a growing panel of leading reinsurers.

Our areas of expertise include Energy, Cyber, Construction & Engineering, Agriculture, Forestry & Parametrics, Property, Marine, Space & Aviation, Financial Lines, Accident & Health and Surety.

Our GWP was $150m+ in 2023, $500m+ in 2024 and $750m+ in 2025.

Headquartered in the UK (London), with branches in Italy (Milan), Morocco (Casablanca), and the USA (Texas), we are strategically positioned to serve clients globally.

AT A GLANCE

SPECIALTY MGA

WHO WE ARE

A leading Managing General Agent offering expertise across multiple lines of business

An experienced team of underwriters with specialised knowledge in their respective fields

Comprehensive capacity across all lines of business, including CAT risks

Efficient underwriting with swift and consistent decisions from our dedicated team

Demonstrated growth, currently writing in excess of $750m (USD) in GWP

A global presence with branches in London, Milan, Casablanca, and Texas

Leveraging a strong international network as part of the MNK Group

WHAT WE DO

Deploy lines of capacity precisely where needed

Ensure an optimised deployment of capacity through a disciplined and consistent underwriting process

Provide capacity for challenging risks, including those exposed to catastrophic events

Robust operating and auditing procedures, designed to be thorough and effective

Leverage technology intelligently to enhance our processes

Strategic partnerships through meaningful and mutually beneficial relationships with risk carriers and partners

THE ENERGY LANDSCAPE

Unique challenges in responding to unexpected demand levels

Balancing growth with carbon emission reduction policies

Diverse risks across traditional and renewable energy sectors

Need for specialised insurance solutions in a rapidly evolving industry

OUR ENERGY INSURANCE

EXPERT
Technical expertise across the entire energy value chain

CONNECTED
Strong market connections for optimal solutions

BESPOKE
Tailored programs for local operators to global conglomerates

SUSTAINABLE
Committed to supporting the energy transition

TRANSCENDING CONVENTIONAL RISK BOUNDARIES

Specialty MGA delivers innovative reinsurance solutions across all territories, providing capacity where traditional markets hesitate.

Our approach combines technical excellence with entrepreneurial thinking to transform complex, challenging, and emerging risks into manageable certainties.

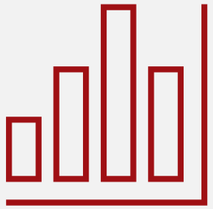

WHY CHOOSE US?

SPECIALTY MGA

Technical Underwriting Excellence

Our team includes former Lloyd's underwriters averaging over 25+ years of market experience, providing unparalleled expertise across specialty lines.

Risk-Bearing Capability

Unlike traditional MGAs, our model incorporates both fee-based agency business and risk participation through our own in-house reinsurance companies. This structure ensures perfect alignment of interests with our capacity providers – we succeed when they succeed.

Technology-Enhanced Underwriting

Our proprietary rating tools and AI-powered analytics enable superior risk selection and pricing accuracy, with demonstrable results in loss ratio performance.

Global Distribution Network

Our strategically located offices in the UK, Italy, Morocco, and the United States provide direct access to quality submissions from over 300 broking relationships worldwide.

Talent Acquisition

Continuing to attract best-in-class underwriters by offering entrepreneurial opportunity backed by strong operational support. Recent additions to our team include industry veterans from major Lloyd's syndicates and international carriers.

Geographic Expansion

Building on the success of our existing international offices with targeted expansion into high-potential markets, particularly in Europe, Africa the Middle East and Asia-Pacific regions.

Product Innovation

Developing specialized products for emerging risks where traditional capacity is limited, including renewable energy, cyber, and parametric solutions.
