(Southern Division)

8 ROBERT LAUDERDALE, JOSHUA
9 CARRELL, TING SHENG WANG,
LEONARD DICKHAUT, ROBERT CROW,
10 AUBIN NTELA, and RODNEY AARON
11 RIGGINS, individually and as representatives
of a class of participants and beneficiaries on
12 behalf of the Wood 401(k) Plan (fka the
13 Wood Group 401(k) Plan),

14 *Plaintiffs,*

15 v.

16
17 NFP RETIREMENT, INC., FLEXPATH
18 STRATEGIES, LLC, WOOD GROUP U.S.
HOLDINGS, INC, WOOD GROUP
19 MANAGEMENT SERVICES, INC. (NKA
WOOD GROUP USA, INC.), THE
20 COMMITTEE OF THE WOOD 401(K)
21 PLAN, and JOHN DOES 1–10,

22 *Defendants.*

Civil Action No. 8:21-cv-301
COMPLAINT—CLASS
ACTION
JURY TRIAL DEMANDED

23
24 1. Plaintiffs Robert Lauderdale, Joshua Carrell, Ting Sheng Wang,
25 Leonard Dickhaut, Robert Crow, Aubin Ntela and Rodney Aaron Riggins,
26 individually and as representatives of a class of participants and beneficiaries of the
27 Wood 401(k) Plan (fka the Wood Group 401(k) Plan) (the Plan), bring this action
28 under 29 U.S.C. §1132(a)(2) and (a)(3) on behalf of the Plan against Defendants

1 NFP Retirement, Inc. (NFP), flexPATH Strategies, LLC (flexPATH Strategies),
2 Wood Group U.S. Holdings, Inc., Wood Group Management Services, Inc. (nka
3 Wood Group USA, Inc.), the Committee of the Wood 401(k) Plan, and John Does
4 1–10, for breach of fiduciary duties and prohibited transactions under ERISA.¹

5 2. As Plan fiduciaries, Defendants are obligated to act for the exclusive
6 benefit of Plan participants and beneficiaries and to ensure that Plan expenses are
7 reasonable and Plan investments are prudent. These duties are the “highest known
8 to the law”, and must be discharged with “an eye single to the interests of the
9 participants and beneficiaries.” *Donovan v. Bierwirth*, 680 F.2d 263, 271, 272 n.8
10 (2d Cir. 1982). Instead of acting in the exclusive best interest of participants, the
11 Wood Defendants and NFP caused the Plan to invest in NFP’s collective
12 investment trusts managed by its affiliate flexPATH Strategies, which benefitted
13 the NFP Defendants at the expense of Plan participants’ retirement savings. The
14 Wood Defendants and NFP also failed to use their Plan’s bargaining power to
15 obtain reasonable investment management fees, which caused unreasonable
16 expenses to be charged to the Plan.

17 3. To remedy these breaches of duty, Plaintiffs, individually and as
18 representatives of a class of participants and beneficiaries of the Plan, bring this
19 action on behalf of the Plan under 29 U.S.C. §1132(a)(2) and (a)(3) to enforce
20 Defendants’ personal liability under 29 U.S.C. §1109(a) to make good to the Plan
21 all losses resulting from each breach of fiduciary duty and to restore to the Plan
22 profits made through Defendants’ use of Plan assets. In addition, Plaintiffs seek
23 equitable or remedial relief for the Plan as the Court may deem appropriate.

24 JURISDICTION AND VENUE

25 4. **Subject-matter jurisdiction.** This Court has exclusive jurisdiction

26 ¹ The Employee Retirement Income Security Act, 29 U.S.C. §§1001–1461.
27 Unless otherwise indicated, NFP Retirement, Inc. and flexPATH Strategies are
28 referred to as the NFP Defendants, and Wood Group U.S. Holdings, Inc., Wood
Group Management Services, Inc., and the Committee of the Wood 401(k) Plan are
referred to as the Wood Defendants.

1 over the subject matter of this action under 29 U.S.C. §1132(e)(1) and 28 U.S.C.
2 §1331 because it is an action under 29 U.S.C. §1132(a)(2).

3 5. **Venue.** This District is the proper venue for this action under 29
4 U.S.C. §1132(e)(2) and 28 U.S.C. §1391(b) because it is the district where the Plan
5 is or was administered, where at least one of the alleged breaches took place, or
6 where at least one defendant resides or may be found.

7 6. **Standing.** An action under §1132(a)(2) allows recovery only for a plan
8 and does not provide a remedy for individual injuries distinct from plan injuries.
9 *LaRue v. DeWolff, Boberg & Assocs.*, 552 U.S. 248, 256 (2008). The plan is the
10 victim of any fiduciary breach and the recipient of any recovery. *Id.* at 254. Section
11 1132(a)(2) authorizes any participant, fiduciary, or the Secretary of Labor to bring a
12 civil action to seek relief on behalf of a plan. 29 U.S.C. §1132(a)(2). As explained
13 in detail below, the Plan suffered millions of dollars in losses resulting from the
14 Wood Defendants' and NFP's fiduciary breaches and remains exposed to harm and
15 continued future losses, and those injuries may be redressed by a judgment of this
16 Court in favor of Plaintiffs. To the extent the Plaintiffs must also show an
17 individual injury, each Plaintiff has suffered such an injury, in at least the following
18 ways:

- 19 a. The Named Plaintiffs suffered harm to their individual accounts as a
20 result of the Wood Defendants and NFP's fiduciary breaches. During
21 the proposed class period, the Named Plaintiffs invested in the
22 flexPATH collective investment trusts provided in the Plan. For
23 instance, all of the Named Plaintiffs except for Plaintiff Ntela and
24 Riggins invested in a flexPATH target date fund. Plaintiff Riggins
25 invested in the International Stock, Core Bond and Large Cap Value
26 funds, which were managed by flexPATH Strategies. Plaintiff
27 Lauderdale also invested in the Core Bond Fund, and Plaintiff Ntela
28 invested in the International Stock Fund. By providing NFP's affiliated

1 collective investment trusts, the Wood Defendants and NFP caused
2 millions of dollars in performance losses to all participants who
3 invested in these funds.

4 b. The Named Plaintiffs suffered harm to their individual accounts as a
5 result of the Wood Defendants selecting and retaining higher-cost
6 versions of the Plan’s investments. For instance, Plaintiff Lauderdale,
7 Carrell, Wang, Dickhaut, Crow and Ntela invested in the Vanguard
8 Target Retirement Trust target date funds when lower-cost shares were
9 available to the Plan. Had the Wood Defendants provided the lowest-
10 cost shares or versions of the Plan’s investments, every participant’s
11 account would have had fewer investment management fees deducted
12 and would have been of higher value in light of those fees and the
13 investment return on those fees.

14 **PARTIES**

15 **The Wood 401(k) Plan (fka the Wood Group 401(k) Plan)**

16 7. The Wood 401(k) Plan (fka the Wood Group 401(k) Plan) is a defined
17 contribution, individual account, employee pension benefit plan under 29 U.S.C.
18 §1002(2)(A) and §1002(34). The Plan is intended to be a multiple employer defined
19 contribution plan in accordance with 26 U.S.C. §413(c). A multiple employer plan
20 is an employee pension benefit plan adopted by two or more employers established
21 and maintained for the purpose of providing benefits to employees of the adopting
22 employers. There were 24 adopting employers in 2014, and 15 in 2019.

23 8. The Plan was established on January 1, 1999 and is maintained under a
24 written document in accordance with 29 U.S.C. §1102(a)(1), last amended and
25 restated effective January 1, 2020.

26 9. Under the Plan, participants are responsible for investing their
27 individual accounts and will receive in retirement only the current value of that
28 account, which will depend on the amount contributed to the account by the

1 employee and employer and on the performance of investment options net of fees
2 and expenses. Plan fiduciaries control what investment options are provided in the
3 Plan and the Plan's fees and expenses.

4 10. As of December 31, 2013, the Plan had \$261.7 million in assets and
5 4,997 participants with account balances. Effective December 31, 2015, the Wood
6 Group Mustang 401(k) Plan, the Wood Group PSN, Inc. 401(k) Plan, and the
7 Elkhorn Holdings, Inc. Profit Sharing Plan merged into the Plan, which increased
8 the Plan's size to \$836.6 million in assets and 10,881 participants with account
9 balances. The Plan continued to dramatically grow in size over the years. By
10 December 31, 2019, the Plan had \$2.4 billion in assets and 18,013 participants with
11 account balances.

12 **Plaintiffs**

13 11. Robert Lauderdale was formerly employed by Wood Group Mustang,
14 Inc. (nka Wood Group USA, Inc.). He resides in Brandon, Florida. He is a
15 participant in the Plan under 29 U.S.C. §1002(7) because he and his beneficiaries
16 are or may become eligible to receive benefits under the Plan.

17 12. Joshua Carrell was formerly employed by Wood Group, PSN (fka
18 Elkhorn Holdings, Inc.), an adopting employer of the Plan. He resides in Windsor,
19 Colorado. He participated in the Plan until approximately September 2019.
20 However, he is still a "participant" under 29 U.S.C. §1002(7) for purposes of bring
21 this action on behalf of the Plan under 29 U.S.C. §1132(a)(2) because he is eligible
22 to receive his share of the amounts by which his account would have been greater
23 had Defendants not breached their fiduciary duties.

24 13. Ting Sheng Wang was formerly employed by Wood Group Mustang,
25 Inc. (nka Wood Group USA, Inc.), an adopting employer of the Plan. He resides in
26 Chicago, Illinois. He is a participant in the Plan under 29 U.S.C. §1002(7) because
27 he and his beneficiaries are or may become eligible to receive benefits under the
28 Plan.

1 exercises discretionary authority or discretionary control respecting the
2 management of the Plan, exercises authority or control respecting the management
3 or disposition of Plan assets, and/or has discretionary authority or discretionary
4 responsibility in the administration of the Plan and is a fiduciary under 29 U.S.C.
5 §1002(21)(A)(i) and (iii).

6 20. Until June 1, 2016, Wood Group Management Services, Inc. was the
7 Plan sponsor under 29 U.S.C. §1102(a)(1) and Plan administrator under 29 U.S.C.
8 §1002(16). Effective June 1, 2016, the Board of Directors of Wood Group
9 Management Services, Inc. transferred sponsorship of the Plan to Wood Group
10 U.S. Holdings, Inc. The Board of Directors of Wood Group U.S. Holdings, Inc.
11 adopted the resolution.

12 21. Effective July 1, 2016, Wood Group Management Services, Inc.
13 merged with Wood Group Mustang, Inc. and later changed its name to Wood
14 Group USA, Inc. on May 29, 2017. Wood Group USA, Inc. is a domestic
15 corporation with a principal place of business in Houston, Texas. It is a wholly
16 owned subsidiary of Wood Group U.S. Holdings, Inc.

17 22. As alleged herein, Wood Group Management Services, Inc. (nka
18 Wood Group USA, Inc.) exercised discretionary authority or discretionary control
19 respecting the management of the Plan, exercised authority or control respecting the
20 management or disposition of Plan assets, and/or had discretionary authority or
21 discretionary responsibility in the administration of the Plan and was a fiduciary
22 under 29 U.S.C. §1002(21)(A)(i) and (iii).

23 23. Wood Group U.S. Holdings, Inc. appointed a “Committee” to carry
24 out its fiduciary duties with respect to the Plan. The Committee will be referred to
25 herein as the “Fiduciary Committee”. The Fiduciary Committee and its individual
26 members are responsible for the selection, monitoring and removal of Plan
27 investments and service providers, including the investment consultant. The
28 Fiduciary Committee establishes and maintains the Plan’s investment policy or

1 guidelines and monitors the fees charged by service providers and the Plan’s
2 investment options. As alleged herein, the Fiduciary Committee and its individual
3 members exercise discretionary authority or discretionary control respecting the
4 management of the Plan, exercise authority or control respecting the management
5 or disposition of Plan assets, and/or have discretionary authority or discretionary
6 responsibility in the administration of the Plan and are fiduciaries under 29 U.S.C.
7 §1002(21)(A)(i) and (iii).

8 24. John Does 1–10 are Plan fiduciaries unknown to Plaintiffs who
9 exercise or exercised discretionary authority or discretionary control respecting the
10 management of the Plan, exercise or exercised authority or control respecting the
11 management or disposition of its assets, or have or had discretionary authority or
12 discretionary responsibility in the administration of the Plan and are fiduciaries
13 under 29 U.S.C. §1002(21)(A)(i) and (iii).

14 25. Because the Wood Group individuals and entities described above
15 acted as alleged herein as agents of Wood Group U.S. Holdings, Inc., these
16 defendants are collectively referred to hereafter as the “Wood Defendants” unless
17 otherwise indicated.

18 26. NFP Retirement, Inc. (dba 401k Advisors, Inc.) is a registered
19 investment adviser under the Investment Advisers Act of 1940 with its principal
20 place of business in Aliso Viejo, California. During 2016, the Wood Defendants
21 appointed NFP as the Plan’s investment consultant or fiduciary investment advisor
22 as defined by 29 U.S.C. §1002(21)(A)(ii). NFP provides investment advice to the
23 Wood Defendants related to the selection, monitoring and replacement of Plan
24 investments.

25 27. flexPATH Strategies, LLC is a registered investment adviser under the
26 Investment Advisers Act of 1940 with its principal place of business in Aliso Viejo,
27 California. flexPATH Strategies is the subadvisor of the flexPATH Index target
28 date funds, the International Stock Fund, the Core Bond Fund and the Large Cap

1 Value Fund, which were investment options in the Plan. flexPATH Strategies is a
2 fiduciary to the Plan under 29 U.S.C. §1002(38).

3 28. On November 19, 2020, in accordance with 29 U.S.C. §1024(b),
4 Plaintiffs requested from the Plan administrator documents related to the operation
5 and administration of the Plan. On January 11, 2021, the Plan administrator
6 responded to that request for information but refused to provide documents related
7 to the process employed by the Wood Defendants in making decisions on behalf of
8 the Plan, including minutes of meetings of the Plan’s fiduciaries and materials
9 presented during those meetings. The Plan administrator also refused to produce
10 service provider agreements, including those with NFP.

11 **ERISA’S FIDUCIARY STANDARDS**

12 29. ERISA imposes strict fiduciary duties of loyalty and prudence upon
13 the Defendants as fiduciaries of the Plan. 29 U.S.C. §1104(a), states, in relevant
14 part, that:

15 [A] fiduciary shall discharge his duties with respect to a plan solely in the
16 interest of the participants and beneficiaries and –

17 (A) for the exclusive purpose of

18 (i) providing benefits to participants and their beneficiaries; and

19 (ii) defraying reasonable expenses of administering the plan;

20 [and]

21 (B) with the care, skill, prudence, and diligence under the
22 circumstances then prevailing that a prudent man acting in a like
23 capacity and familiar with such matters would use in the
24 conduct of an enterprise of like character and with like aims.

25 30. Under ERISA, fiduciaries that exercise any authority or control over
26 plan assets, including, but not limited to, the selection of plan investments and
27 service providers, must act prudently and for the *exclusive* benefit of participants in
28 the plan, monitor the funds in the plan and remove imprudent or excessively

1 expensive funds. Fiduciaries cannot act for the benefit of third parties, including
2 service providers to the plan, affiliated businesses or brokerage firms and those who
3 provide investment products. Fiduciaries must ensure that the amount of fees paid
4 to service providers is no more than reasonable. DOL Adv. Op. 97-15A; DOL Adv.
5 Op. 97-16A; *see also* 29 U.S.C. §1103(c)(1) (plan assets “shall be held for the
6 exclusive purposes of providing benefits to participants in the plan and their
7 beneficiaries and defraying reasonable expenses of administering the plan”).

8 31. An ERISA “trustee has a continuing duty to monitor trust investments
9 and remove imprudent ones.” *Tibble v. Edison Int’l*, 135 S. Ct. 1823, 1828 (2015).
10 Prudence requires a review at “regular intervals.” *Id.* When making investment
11 decisions, an ERISA fiduciary “is duty-bound ‘to make such investments and only
12 such investments as a prudent [person] would make of his own property[.]’” *In re*
13 *Unisys*, 74 F.3d 420, 434 (3d Cir. 1996) (quoting RESTATEMENT (SECOND) OF
14 TRUSTS §227 (1959)). “[T]he duty to conduct an independent investigation into the
15 merits of a particular investment” is “the most basic of ERISA’s investment
16 fiduciary duties.” *Id.* at 435.

17 32. A defined contribution plan fiduciary cannot “insulate itself from
18 liability by the simple expedient of including a very large number of investment
19 alternatives in its portfolio and then shifting to the participants the responsibility for
20 choosing among them.” *Hecker v. Deere & Co.*, 569 F.3d 708, 711 (7th Cir. 2009).
21 Instead, fiduciaries must “initially determine, and continue to monitor, the prudence
22 of *each* investment option available to plan participants.” *DiFelice v. U.S. Airways,*
23 *Inc.*, 497 F.3d 410, 423 (4th Cir. 2007) (emphasis original); *see also* 29 C.F.R.
24 §2550.404a-1; DOL Adv. Op. 98-04A; DOL Adv. Op. 88-16A. Fiduciaries have “a
25 continuing duty to monitor investments and remove imprudent ones” within a
26 reasonable time. *Tibble*, 135 S. Ct. at 1828–29.

27 33. ERISA also imposes explicit co-fiduciary liabilities on plan
28 fiduciaries. 29 U.S.C. §1105(a) provides a cause of action against a fiduciary for

1 knowingly participating in a breach by another fiduciary and knowingly failing to
2 cure any breach of duty. The statute states, in relevant part, that:

3 In addition to any liability which he may have under any other provisions of
4 this part, a fiduciary with respect to a plan shall be liable for a breach of
5 fiduciary responsibility of another fiduciary with respect to the same plan in
6 the following circumstances:

- 7 (1) if he participates knowingly in, or knowingly undertakes to
8 conceal, an act or omission of such other fiduciary, knowing
9 such act or omission is a breach; [or]
10 (2) if, by his failure to comply with section 1104(a)(1) of this title in
11 the administration of his specific responsibilities which give rise
12 to his status as a fiduciary, he has enabled such other fiduciary
13 to commit a breach; or
14 (3) if he has knowledge of a breach by such other fiduciary, unless
15 he makes reasonable efforts under the circumstances to remedy
16 the breach.

17 **BACKGROUND FACTS**

18 34. “Defined contribution plans dominate the retirement plan scene
19 today.” *LaRue v. DeWolff, Boberg & Assocs.*, 552 U.S. 248, 255 (2008). In the
20 private sector, such plans have largely replaced the defined benefit pension plans
21 that were America’s retirement system when ERISA was enacted in 1974. The
22 consulting firm Towers Watson studied Fortune 100 companies from 1985 to 2012
23 and found that the type of retirement plan offered by the companies has essentially
24 flipped over the last three decades.² The survey found that whereas in 1985, 89 of
25 the Fortune 100 companies offered a traditional defined benefit plan, in 2012, only
26 eleven of the Fortune 100 companies offered defined benefit plans to newly hired

27 _____
28 ² Towers Watson, *Retirement Plan Types of Fortune 100 Companies in 2012*,
TOWERS WATSON RESEARCH INSIDER, Oct. 2012.

1 employees. Defined contribution plans have become America's retirement system.

2 35. A fundamental difference between traditional pension plans and
3 defined contribution plans is that, in the former, the employer's assets are at risk.
4 Because the employer is responsible for funding the pension plan to satisfy its
5 commitments to employees, it bears all investment risks. In a defined contribution
6 plan, the employees and retirees bear all investment risks.

7 36. Each participant in a defined contribution plan has an individual
8 account and directs plan contributions into one or more investment alternatives in a
9 lineup chosen by the plan's fiduciaries. "[P]articipants' retirement benefits are
10 limited to the value of their own individual investment accounts, which is
11 determined by the market performance of employee and employer contributions,
12 less expenses." *Tibble*, 135 S. Ct. at 1826. Plan expenses can "significantly reduce
13 the value of an account in a defined-contribution plan." *Id.* The fees assessed to
14 participants are generally attributable to two types of services: plan administration
15 and investment management.

16 37. The plan's fiduciaries have control over these expenses. The
17 fiduciaries are responsible for hiring administrative service providers and
18 negotiating and approving their compensation. The fiduciaries also have exclusive
19 control over the menu of investment alternatives to which participants may direct
20 the assets in their accounts. The investment alternatives each have their own fees,
21 usually expressed as a percentage of assets under management, or "expense ratio."
22 For example, if a fund deducts 1.0% of fund assets each year in fees, the fund's
23 expense ratio would be 1.0%, or 100 basis points (bps). (One basis point is equal to
24 1/100th of one percent.) The fees deducted from a fund's assets reduce the value of
25 the shares and hence reduce the returns that participants receive on their
26 investments.

27 38. These fiduciary decisions have the potential to dramatically affect the
28 amount of money that participants are able to save for retirement. According to the

1 U.S. Department of Labor, a 1% difference in fees over the course of a 35-year
2 career makes a difference of 28% in savings at retirement.³ Over a 40-year career,
3 this difference in fees can reduce a participant's retirement savings by almost
4 \$500,000.⁴

5 39. Academic and financial industry literature demonstrate that high
6 expenses are not correlated with superior investment management. Indeed, funds
7 with high fees on average perform worse than less expensive funds even on a *pre-*
8 *fee basis*. Javier Gil-Bazo & Pablo Ruiz-Verdu, *When Cheaper is Better: Fee*
9 *Determination in the Market for Equity Mutual Funds*, 67 J. ECON. BEHAV. & ORG.
10 871, 873 (2008); *see also* Jill E. Fisch, *Rethinking the Regulation of Securities*
11 *Intermediaries*, 158 U. PA. L. REV. 1961, 1993 (2010) (summarizing numerous
12 studies showing that “the most consistent predictor of a fund’s return to investors is
13 the fund’s expense ratio”).

14 [T]he empirical evidence implies that superior
15 management is not priced through higher expense ratios.
16 On the contrary, it appears that the effect of expenses on
17 after-expense performance (even after controlling for
18 funds’ observable characteristics) is more than one-to-
19 one, which would imply that low-quality funds charge
20 higher fees. Price and quality thus seem to be inversely
21 related in the market for actively managed mutual funds.

22 Gil-Bazo & Ruiz-Verdu, *When Cheaper is Better*, at 883.

23 40. Accordingly, fiduciaries of defined contribution plans must engage in
24 a rigorous process to control costs and ensure that participants pay no more than a

25 _____
26 ³ U.S. Dept. of Labor, *A Look at 401(k) Plan Fees*, at 2 (Sept. 2019),
<https://www.dol.gov/sites/dolgov/files/ebsa/about-ebsa/our-activities/resource-center/publications/a-look-at-401k-plan-fees.pdf>.

27 ⁴ Michael Bird, *Pandemic Highlights Reasons for Reviewing Plan Fees*,
28 PLANSPONSOR, May 15, 2020, <https://www.plansponsor.com/pandemic-highlights-reasons-reviewing-plan-fees/>.

1 reasonable level of fees. This is particularly true for large defined contribution plans
2 which have the bargaining power to obtain the highest level of service and the very
3 lowest fees. The fees available to these plans are orders of magnitude lower than the
4 much higher retail fees available to small investors.

5 41. The entities that provide services to defined contribution plans have an
6 incentive to maximize their fees by putting their own higher-cost funds in plans and
7 collecting the highest amount possible for plan-related services. For each additional
8 dollar in fees paid to a service provider, participants' retirement savings are directly
9 reduced by the same amount, and participants lose the potential for those lost assets
10 to grow over the remainder of their careers through investment returns. The level of
11 diligence used by plan fiduciaries to control, negotiate, reduce the plan's fees, and
12 safeguard plan assets directly affects participants' retirement security.

13 42. Fiduciaries must be cognizant of a service provider's self-interest in
14 maximizing fees, and cannot simply accede to the provider's desires and
15 recommendations to include the provider's proprietary funds and services that will
16 maximize the provider's fees without negotiating or considering alternatives. In
17 order to act in the exclusive interest of participants and not in the service provider's
18 interest, fiduciaries must conduct their own independent investigation into the
19 merits of a particular investment or service by considering alternatives.

20 **DEFENDANTS BREACHED THEIR FIDUCIARY DUTIES**

21 **I. Based on conflicted advice, Defendants added NFP's affiliated collective**
22 **investment trusts to the Plan that were managed by an untested**
23 **investment manager (flexPATH Strategies).**

24 **A. NFP acted under a profound conflict of interest in recommending**
25 **the use of its affiliated investments in the Plan.**

26 43. During 2016, the Wood Defendants hired NFP as the Plan's
27 investment consultant or fiduciary investment advisor to provide investment advice
28 to the Plan's fiduciaries related to the selection, monitoring and removal of Plan

1 investments. Shortly after the appointment of NFP, the Wood Defendants added
2 NFP's affiliated target date funds to the Plan in June 2016 based on the advice and
3 recommendation of NFP. As described in further detail *infra*, these funds were
4 called the flexPATH Index target date funds (flexPATH target date funds). After
5 their removal from the Plan during 2018, NFP seized on the opportunity to replace
6 this loss of revenue by recommending the placement of other affiliated investments
7 in the Plan called the International Stock, Core Bond and Large Cap Value funds.
8 (NFP's affiliated investments are collectively referred to herein as the flexPATH
9 funds.)

10 44. The flexPATH funds are collective investment trusts maintained by
11 Wilmington Trust, N.A. (Wilmington Trust), a bank that serves as the trustee for
12 the funds. Collective investment trusts are investment vehicles maintained by a
13 bank that consist of pooled assets of "retirement, pension, profit sharing, stock
14 bonus or other trusts exempt from Federal income tax". 29 C.F.R. §9.18(a)(2). A
15 collective investment trust is similar to a mutual fund or other pooled investment
16 vehicle because it also invests in a variety of securities to create a diversified
17 investment portfolio.

18 45. flexPATH Strategies is the subadvisor of the flexPATH funds. As the
19 subadvisor, flexPATH Strategies provides investment advisory services and has
20 authority over investing fund assets and developing the investment strategies for the
21 funds. In return, flexPATH Strategies receives an asset-based advisory fee from the
22 funds, and thus from participants' retirement assets.

23 46. flexPATH Strategies had limited experience managing assets when the
24 flexPATH funds were first added to the Plan. flexPATH Strategies was not
25 registered as an investment adviser with the SEC until February 2015, and did not
26 begin managing assets until June 2015. Shortly thereafter, in December 2015 and
27 January 2016, flexPATH Strategies launched the flexPATH Index target date funds,
28 which were included in the Plan within six months of their inception.

1 47. The flexPATH funds are affiliated investment products of NFP.
2 National Financial Partners Corporation (NFP Corporation) owns NFP. NFP
3 Corporation, along with NFP’s Chief Executive Officer (CEO) and President, own
4 flexPATH Strategies. In particular, NFP’s CEO has a 25%–50% ownership interest
5 in flexPATH Strategies, and NFP’s President has a 10%–25% ownership interest.
6 flexPATH Strategies and NFP are operated by the same corporate officers and
7 headquartered in the same office. The CEO, President, Chief Operations Officer,
8 and Chief Compliance Officer for NFP also hold those positions for flexPATH
9 Strategies. As reported on the companies’ Forms ADV filed with the SEC, these
10 individuals are control persons with authority to direct the management of each
11 company (flexPATH Strategies and NFP).

12 48. In recommending the placement of the flexPATH funds in the Plan,
13 NFP acted under a profound conflict of interest between acting in the exclusive best
14 interest of Plan participants as the Plan’s fiduciary investment advisor while also
15 seeking to grow its collective investment trust business through flexPATH
16 Strategies and maximize its revenue through investment advisory fees collected
17 from the flexPATH funds. NFP had an incentive to recommend investment vehicles
18 offered by flexPATH Strategies because it receives additional compensation when
19 its clients invest in those vehicles, such as in the form of bonuses and other
20 incentives for the individual NFP investment advisors whose clients invest in
21 affiliated products or services.

22 49. NFP’s Form ADV Brochure Part 2A for NFP dated March 2020
23 confirms this inherent conflict of interest in recommending the use of affiliated
24 products or services— NFP or “its associated persons may receive compensation”
25 for “services and/or products” affiliated with NFP Corporation or its affiliates.
26 Moreover, NFP employs Investment Advisor Representatives (IARs), who are
27 individuals within the firm that provide investment advice to clients. The IARs are
28 commonly co-employed by flexPATH Strategies. These individuals therefore may

1 also receive compensation as an IAR of flexPATH Strategies. In fact, certain NFP
2 IARs derive their entire compensation from flexPATH Strategies. Apart from the
3 IARs, NFP's President, Chief Executive Officer and Chief Investment Officer are
4 co-employed by flexPATH Strategies.⁵

5 50. Plan participants were not informed that NFP was the entity that
6 recommended the flexPATH funds for the Plan, or that NFP had a profound
7 conflict of interest when recommending the use of its affiliated funds. Plan
8 participants also were not informed of the internal decision-making process that the
9 Wood Defendants and NFP employed prior to selecting the flexPATH funds.

10 51. Following the decision to add the proprietary flexPATH funds to the
11 Plan, NFP and flexPATH Strategies earned substantial revenue from the investment
12 advisory fees charged on the funds. The decision to add the flexPATH target date
13 funds to the Plan alone resulted in an immediate and substantial transfer of
14 approximately \$565 million of the Plan's assets into these brand-new, untested
15 target date funds. The Plan's investment of over \$500 million in seed money
16 substantially increased NFP's and flexPATH Strategies' assets under management
17 in these investment vehicles, which materially benefitted their retirement business
18 by enhancing the marketability of these new funds.

19 52. The material benefit NFP and flexPATH Strategies derived from the
20 Plan is illustrated by the Plan's investment in the flexPATH Index Moderate funds,
21 which was one of the three risk profile models used for the Plan's flexPATH target
22 date funds. *See infra* Section I.B.1. As of January 1, 2016, NFP and flexPATH
23 Strategies attracted only \$77.7 million in qualified plan assets. However, by
24 December 31, 2016, the Plan added \$552.8 million in assets to these investments.
25 In total, by year-end 2016, the Plan's assets represented the majority of the assets
26 invested in the flexPATH Index Moderate funds.

27 _____
28 ⁵ In 2015, NFP Securities, Inc. also received finder's or placement fees from the
Plan.

1 53. The material benefit NFP and flexPATH Strategies derived from the
2 Plan was not limited to the flexPATH target date funds. As described in further
3 detail *infra*, the International Stock, Core Bond and Large Cap Value funds did not
4 exist until 2017 or 2018. As a result of NFP’s conflicted advice, the Plan
5 immediately transferred approximately \$159 million in these newly established
6 funds less than one year after their inception. Like the flexPATH target date funds,
7 the Plan’s substantial transfer of seed money to these affiliated investments
8 materially benefitted NFP and flexPATH Strategies.

9 **B. A prudent and loyal fiduciary would not have invested in NFP’s**
10 **affiliated funds that served to only benefit the Plan’s fiduciary**
11 **investment advisor and affiliate.**

12 **1. The flexPath Index target date funds.**

13 54. Target date funds are designed to provide a single diversified
14 investment vehicle for participants. In general, they can be attractive to participants
15 who do not want to actively manage their retirement savings to maintain a
16 diversified portfolio. Target date funds rebalance their portfolios to become more
17 conservative as the participant gets closer to retirement. The “target date” refers to
18 the participant’s target retirement date. For instance, target date “2030” funds are
19 designed for individuals who intend to retire in 2030.

20 55. The flexPATH target date funds utilized a novel and untested target
21 date fund management style by combining index or passive management strategies
22 with multiple glidepaths. A glidepath refers to how the fund’s target asset
23 allocations among a mix of investments, such as stocks, bonds and cash
24 equivalents, are expected to change over time. As the participant’s target date
25 approaches, the asset allocations transition to a mix of more conservative
26 investments.

27 56. When the flexPATH target date funds were launched, their
28 management style had never been used in any target date fund solution offered in

1 the marketplace. Each “target date” fund had three glidepaths varying by
2 investment style and risk tolerance. For instance, for the 2030 target retirement
3 date, flexPATH Strategies provided three separate target date funds: flexPATH
4 Index Aggressive 2035 Fund, flexPATH Index Moderate 2035 Fund, and
5 flexPATH Index Conservative 2035 Fund. Because three separate target date funds
6 are offered for a single target retirement date, the number of target date funds
7 offered for a plan triples. This adds further complexity to the fund lineup from
8 which participants select options to invest for retirement.

9 57. flexPATH Strategies did not actually invest the flexPATH target date
10 funds’ underlying assets. Rather, flexPATH Strategies utilized a “fund of funds”
11 structure for the target date funds, whereby it allocated fund assets among various
12 underlying funds managed by an unaffiliated investment manager.

13 58. The Financial Statements for the Wilmington Trust Collective
14 Investment Trust Funds Subadvised by flexPATH Strategies, LLC reported the
15 underlying assets of the flexPATH target date funds. For the flexPATH Aggressive
16 target date funds, the funds invested in one or two BlackRock LifePath Index target
17 date funds, *e.g.*, the flexPATH Index Aggressive 2025 Fund invests in the
18 BlackRock LifePath Index 2030 and 2035 funds (F shares). The flexPATH
19 Moderate target date funds invested in the BlackRock LifePath Index target date
20 fund corresponding to the target retirement date, *e.g.*, the flexPATH Index
21 Moderate 2025 Fund invests in the BlackRock LifePath Index 2025 Fund (F
22 shares). And the flexPATH Conservative target date funds invested in the
23 BlackRock LifePath Index Conservative target date fund corresponding to the
24 target retirement date, *e.g.*, the flexPATH Index Conservative Index 2025 Fund
25 invests in the BlackRock LifePath Index Conservative 2025 Fund (F shares).

26 59. Because flexPATH Strategies invested the underlying assets of the
27 flexPATH target date funds in BlackRock target date funds, flexPATH Strategies
28 charged an additional layer of fees than would otherwise be charged to investors

1 had they invested directly in BlackRock’s funds. In its Form ADV Brochure Part
2 2A, NFP concedes that it does not make any representation that affiliated products
3 are “offered at the lowest cost and the client may be able to obtain the same
4 products or services at a lower cost from other providers.” The additional fees
5 charged by NFP are shown when comparing the fees charged by the underlying
6 BlackRock funds. The BlackRock LifePath Index target date funds charge 8 bps. In
7 contrast, flexPATH Strategies charged Plan participants 26 bps. This resulted in an
8 additional 18 bps—225% more—to invest in flexPATH’s version of the target date
9 funds.

10 60. Within months of the Wood Defendants hiring NFP as the Plan’s
11 fiduciary investment advisor, NFP recommended its affiliated flexPATH target date
12 funds for the Plan even though flexPATH Strategies had no established track record
13 as an investment manager and its target date fund management style had never been
14 used in any target date fund offered to a 401(k) plan. flexPATH Strategies did not
15 first start managing assets for investors until June 2015 by launching its first
16 version of target date funds called the flexPATH Index + target date funds. Shortly
17 thereafter, flexPATH Strategies launched the version of the target date funds
18 included in the Plan, the flexPATH Index target date funds. These target date funds
19 did not even exist until December 2015 (for the Aggressive and Conservative
20 funds) and January 2016 (for the Moderate funds). However, they were placed in
21 the Plan on June 21, 2016. Therefore, at most, the flexPATH target date funds had
22 only *one* full quarter of live performance history when they were added to the Plan.

23 61. When making investment decisions, prudent fiduciaries of defined
24 contribution plans consider the performance history, portfolio manager experience,
25 and manager tenure of available investment alternatives. A consistent performance
26 history and investment strategy, among other factors, demonstrate the ability of the
27 investment manager to generate consistently superior long-term investment results.
28 At a minimum, prudent fiduciaries require a five-year performance history for an

1 investment option prior to its inclusion in a 401(k) plan.

2 62. A prudent and loyal fiduciary would not have selected the flexPATH
3 target date funds without a five-year performance history to assess the investment
4 manager's ability to provide superior long-term investment returns relative to
5 prudent alternatives available to the Plan. That is especially so when the investment
6 manager (flexPATH Strategies) had less than one year of actual experience
7 managing assets and the decision to add the funds financially benefitted the Plan's
8 fiduciary investment advisor (NFP).

9 63. Given the lack of any meaningful performance history to evaluate
10 flexPATH Strategies or the flexPATH target date funds relative to prudent
11 alternatives available to the Plan, the Wood Defendants and NFP also failed to
12 conduct an independent investigation into the merits of the flexPATH funds prior to
13 placing them in the Plan. It is further evident that the Wood Defendants failed to
14 conduct a prudent investigation of flexPATH Strategies' qualifications to determine
15 whether flexPATH Strategies was sufficiently capable of managing the Plan's
16 assets through an untested investment strategy. The inadequate track record of the
17 flexPATH funds and investment manager would have been apparent to a prudent
18 and loyal fiduciary.

19 64. In selecting the flexPATH target date funds, the foregoing facts
20 demonstrate that the Wood Defendants and NFP failed to "balance the relevant
21 factors and make a reasoned decision as to the preferred course of action—under
22 circumstances in which a prudent fiduciary would have done so", which is a breach
23 of fiduciary duty. *See George v. Kraft Foods Global, Inc.*, 641 F.3d 786, 788 (7th
24 Cir. 2011). There was no loyal or prudent reason to place the flexPATH target date
25 funds in the Plan, which were managed by an inexperienced investment manager
26 under a novel and untested target date fund investment strategy.

27 65. The decision to select the flexPATH target date funds also was
28 contrary to the Wood Defendants' Investment Policy Statement (IPS) for the Plan,

1 which governs the selection, monitoring and removal of Plan investment options.
2 The IPS documents the investment process by which the Plan's fiduciaries
3 determined was prudent when overseeing the Plan's investments. Once an IPS is
4 adopted by fiduciaries, prudent fiduciaries follow its terms. Failure to follow its
5 terms is direct evidence that the fiduciaries failed to employ a prudent investment
6 process.

7 66. Although the most recent IPS is dated January 1, 2019, on information
8 and belief, the standards set forth therein were contained within a prior IPS
9 applicable at the time the Wood Defendants selected the flexPATH target date
10 funds. For the selection of Plan investments, the IPS specifies the standards that
11 should be considered by the Fiduciary Committee. For target date fund strategies,
12 the IPS required a five-year performance history for funds to be included in the
13 Plan. Because the flexPATH target date funds did not have a five-year performance
14 history, the Fiduciary Committee was unable to evaluate the funds in accordance
15 with its own investment criteria.

16 67. The significance of a plan's target date fund option underscores the
17 importance of a prudent and loyal selection process and continuous oversight of
18 that option. Participants may solely rely on their single target date fund selection
19 over their investment horizon to meet their retirement goals. In addition, the
20 flexPATH Moderate target date fund was the Plan's Qualified Default Investment
21 Alternative (QDIA).⁶ No prudent fiduciary would subject Plan participants to an
22 unproven fund that they heavily rely on to invest for retirement.

23 68. At the time the flexPATH target date funds were added to the Plan,
24 there was no shortage of prudent target date funds managed by experienced and
25 reputable investment managers available to the Plan. The market for target date
26 funds provided to defined contribution plans has been highly developed since target

27 ⁶ If a participant has not made or does not make an investment election, any
28 contributions she receives or makes to the Plan are invested in the QDIA. 29 CFR
§2550.404c-5(a)(1).

1 date funds were first offered to the marketplace in March 1994.⁷ Vanguard's target
 2 date funds, called the Vanguard Target Retirement Funds, are one such example of
 3 a prudent target date solution to the flexPATH target date funds that has been
 4 available in the market for 17 years.

5 69. Vanguard has extensive experience in the investment management
 6 industry. Founded on May 1, 1975, Vanguard has offered investment products to
 7 investors for over 45 years.⁸ Vanguard has offered target date funds since 2003,⁹
 8 and lower-cost collective investment trust versions (I shares) since 2007.¹⁰ Each
 9 year from 2012–2017, Vanguard received the highest Morningstar Analyst Rating
 10 for Target-Date Series mutual funds.¹¹ Vanguard also has been the top target date
 11 fund provider (by assets under management) since 2014.¹² Since before 2016,
 12 Vanguard's target date mutual funds have been strong performing target date
 13 funds,¹³ and the Vanguard collective investment trust versions have experienced
 14 even better performance because they charge lower fees than their mutual fund
 15 equivalents.

 27 of investment research and investment services, and is relied on by industry
 28 professionals.

¹² Morningstar, 2019 Target Date Fund Landscape, at 9, 11
 26 <https://institutional.vanguard.com/iam/pdf/TDFLNDSCP.pdf>.

¹³ *E.g.*, Morningstar, 2019 Target Date Fund Landscape at 33; Vanguard Chester
 27 Funds, Form N-1A, Jan. 27, 2017,
 28 <https://www.sec.gov/Archives/edgar/data/752177/000093247117000194/chester485b.htm>.

1 70. The Vanguard Target Retirement collective trust target date funds also
2 charge low investment management expenses. Since 2016, the Vanguard Target
3 Retirement Trust Plus charge 6–7 bps, and the lower-cost Trust Select shares charge
4 5 bps. The Trust Plus shares have been available since August 2011, while the Trust
5 Select shares have been available since June 2015. Relative to the Trust Select
6 Shares at the time of selection, the flexPATH target date funds (I1 shares) charged
7 420% higher expenses—26 bps compared to 5 bps. The Plan later transitioned to M
8 shares for the flexPATH target date funds at or around February 2018. These shares
9 were still more than twice the cost of the Vanguard collective trusts—12 bps
10 compared to 5 bps.

11 71. The Wood Defendants recognized the prudence of using Vanguard as
12 the Plan’s target date fund manager. As of December 31, 2018, the Wood
13 Defendants replaced the flexPATH target date funds with the Vanguard Target
14 Retirement Trust Plus target date funds. The Wood Defendants only came to this
15 conclusion after they subjected Plan participants to an untested target date fund
16 solution that put at risk hundreds of millions of dollars of participants’ retirement
17 savings. This decision caused Plan participants to lose substantial retirement
18 savings.

19 72. A prudent alternative to the flexPATH target date funds was the
20 Vanguard Target Retirement Trust target date funds. From June 30, 2016 through
21 September 30, 2018, the Plan’s flexPATH target date funds substantially
22 underperformed the Vanguard Target Retirement Trust Select target date funds.
23 Had the Wood Defendants used the Vanguard alternative rather than the flexPATH
24 target date funds, Plan participants would not have lost in excess of \$17.6 million of
25 their retirement savings.¹⁴

26 //

27 _____
28 ¹⁴ Plan losses have been brought forward through September 30, 2020 to account
for lost investment opportunity.

2. International Stock Fund (I1).

1
2 73. In late 2018, the Wood Defendants added the International Stock Fund
3 (I1) to the Plan on the advice and recommendation of NFP. The International Stock
4 Fund replaced the Dodge & Cox International Fund (DODFX), which resulted in
5 over \$16 million mapped to that fund. “Mapping” refers to the process where the
6 fund assets are sold, and the proceeds are transferred to the new investment option
7 where they are reinvested. As indicated *supra*, the International Stock Fund is an
8 affiliated investment of NFP, as flexPATH Strategies serves as the subadvisor for
9 this fund.

10 74. Using an active investment management strategy, the International
11 Stock Fund seeks to achieve long-term capital growth by investing primarily in
12 non-U.S. equity securities. Morningstar classifies the Fund in the foreign large cap
13 value asset category and uses the Morgan Stanley Capital International All Country
14 World Index Excluding U.S. (MSCI ACWI Ex-US Index) as its style-specific
15 benchmark. The MSCI benchmark index captures large and mid-cap securities
16 across 22 developed markets countries (excluding the United States) and 27
17 emerging markets countries.

18 75. In an active investment strategy, the investment manager uses her
19 judgment in buying and selling individual securities (*e.g.*, stocks, bonds, etc.) in an
20 attempt to generate investment returns that surpass a benchmark index, net of fees,
21 which are higher in actively managed than passively managed funds. In a passive
22 investment strategy, the investment manager attempts to match the performance of
23 a given benchmark index by holding a representative sample of securities in that
24 index. Because no stock selection or research is necessary for the manager to track
25 the index and trading is limited, passively managed investments charge
26 significantly lower fees for investment management services.

27 76. In light of the effect of fees on expected returns, fiduciaries must
28 carefully consider whether the added cost of actively managed funds is realistically

1 justified by an expectation of higher returns. RESTATEMENT (THIRD) OF TRUSTS ch.
2 17, intro. note; *id.* § 90 cmt. h(2). Nobel Prize winners in economics have
3 concluded that virtually no investment manager consistently beats the market over
4 time after fees are taken into account. “Properly measured, the average actively
5 managed dollar must underperform the average passively managed dollar, net of
6 costs.” William F. Sharpe, *The Arithmetic of Active Management*, 47 FIN.
7 ANALYSTS J. 7, 8 (Jan./Feb. 1991);¹⁵ Eugene F. Fama & Kenneth R. French, *Luck*
8 *Versus Skill in the Cross-Section of Mutual Fund Returns*, 65 J. FIN. 1915, 1915
9 (2010) (“After costs . . . in terms of net returns to investors, active investment must
10 be a negative sum game.”).

11 77. To the extent managers show any sustainable ability to beat the
12 market, the outperformance is nearly always dwarfed by fund expenses. Fama &
13 French, *Luck Versus Skill in the Cross-Section of Mutual Fund Returns*, at 1931–
14 34; *see also* Russ Wermers, *Mutual Fund Performance: An Empirical*
15 *Decomposition into Stock-Picking Talent, Style, Transaction Costs, and Expenses*,
16 55 J. FIN. 1655, 1690 (2000) (“on a net-return level, the funds underperform broad
17 market indexes by one percent per year”).

18 78. If an individual high-cost mutual fund exhibits market-beating
19 performance over a short period of time, studies demonstrate that outperformance
20 during a particular period is not predictive of whether a mutual fund will perform
21 well in the future. Laurent Barras et al., *False Discoveries in Mutual Fund*
22 *Performance: Measuring Luck in Estimated Alphas*, 65 J. FIN. 179, 181 (2010);
23 Mark M. Carhart, *On Persistence in Mutual Fund Performance*, 52 J. FIN. 57, 57,
24 59 (1997) (measuring thirty-one years of mutual fund returns and concluding that
25 “persistent differences in mutual fund expenses and transaction costs explain almost
26 all of the predictability in mutual fund returns”). But the *worst-performing* mutual
27 funds show a strong, persistent tendency to continue their poor performance.

28 ¹⁵ <https://www.tandfonline.com/doi/10.2469/faj.v47.n1.7>.

1 Carhart, *On Persistence in Mutual Fund Performance*, at 57.

2 79. Accordingly, a prudent fiduciary would not select as a plan investment
3 option a more-expensive actively managed fund without determining that the fund
4 is reasonably expected to outperform a cheaper index fund.

5 80. The International Stock Fund did not exist until December 29, 2017
6 when flexPATH Strategies launched the fund. Wilmington Trust is the trustee and
7 flexPATH Strategies is the subadvisor of the fund. Rather than actually investing
8 the underlying assets of the International Stock Fund, flexPATH Strategies invests
9 the assets in an investment vehicle managed by an unaffiliated investment manager.
10 From the fund's inception to March 27, 2020, the Templeton Foreign CIT was the
11 underlying fund, and since that time, the PIMCO RAE International collective trust
12 has been the underlying fund.

13 81. The International Stock Fund had less than one year of performance
14 history at the time the Wood Defendants selected it for inclusion in the Plan. And
15 flexPATH Strategies had only managed assets in general for barely three years. By
16 December 31, 2018, when the International Stock Fund had one full calendar year
17 of performance, the fund underperformed its benchmark index. Although the
18 underlying fund (Templeton Foreign Fund CIT) had a longer performance history,
19 it was not made available to Plan participants. Even though the Templeton Foreign
20 Fund had a 10-year performance history (through its mutual fund equivalent in R or
21 R6 shares), it underperformed its benchmark index over 1-, 5- and 10-year periods
22 as of December 31, 2017.¹⁶ From 2014 through 2017, the Templeton Foreign Fund
23 also ranked in the 80th percentile or worse of its peer group for three of those four
24 years.

25 82. The International Stock Fund charges 40 bps. In addition to the
26 investment management expenses charged by the investment manager (Templeton

27 ¹⁶ Templeton Funds, Form N-1A, Dec. 27, 2018,
28 <https://www.sec.gov/Archives/edgar/data/225930/000137949118006477/filing1906.htm>.

1 Global Advisors) of the underlying fund, flexPATH Strategies charges Plan
2 participants an additional layer of investment management fees for its role as the
3 subadvisor. These fees were excessive because flexPATH Strategies did not
4 actually invest the fund's underlying assets but rather retained Templeton Global
5 Advisors to perform those investment management services. This caused Plan
6 participants to pay higher expenses than would be charged if the Plan invested
7 directly in the lowest-share class of the underlying fund. This caused participants to
8 suffer from lower returns on their investment due to higher expenses.

9 83. For instance, during the time period that the Templeton Foreign CIT
10 was the fund's underlying investment, Wilmington Trust offered the Templeton
11 Foreign CIT (Class 0TS), which charged 33 bps—close to 20% less—for the same
12 investment managed by the same investment manager. The additional expenses
13 charged by flexPATH Strategies for the same investment only benefitted NFP and
14 flexPATH Strategies through additional advisory fee revenue to the detriment of
15 Plan participants.¹⁷

16 84. The International Stock Fund was inferior to other comparable funds
17 in the market. The Vanguard Total World Stock Index Fund (Instl) (VTWIX) is a
18 passively managed foreign index fund that provides shareholders broad exposure to
19 stock markets around the world, including developed and emerging markets. The
20 Vanguard index fund charged substantially lower expenses than the International
21 Stock Fund. In 2018, flexPATH Strategies charged 40 bps compared to 10 bps
22 charged by Vanguard, which is 300% more. The Vanguard index fund also was
23 superior to the International Stock Fund in terms of performance. As of December
24 31, 2017, the Vanguard alternative outperformed the Templeton Foreign Fund (as
25 measured by its mutual fund equivalent) over the trailing one-, three- and five-year

26 _____
27 ¹⁷ The harm to Plan participants is further shown when the International Stock
28 Fund is compared to the Templeton Foreign CIT's mutual fund equivalent. In 2019,
the International Stock Fund underperformed the Templeton Foreign Fund (R6)
(FTFGX), which charged higher expenses: 13.05% vs. 12.77%.

1 periods.¹⁸

2 85. Another lower-cost alternative to the International Stock Fund is the
3 Vanguard Total International Stock Index Fund (VTPSX). The Vanguard Total
4 International Stock is a passively managed foreign index fund that provides
5 shareholders exposure to developed and emerging markets, excluding the United
6 States. The Vanguard index fund is benchmarked to the MSCI ACWI ex US and
7 other comparative indexes. In 2018, flexPATH Strategies charged 40 bps for the
8 International Stock Fund, which were 471% higher than 7 bps charged by
9 Vanguard. The Vanguard index fund also was superior to the International Stock
10 Fund in terms of performance. As of December 31, 2017, the Vanguard alternative
11 outperformed the Templeton Fund (as measured by its mutual fund equivalent) over
12 the trailing one-, three-, and five-year periods.¹⁹

13 86. Since 2018 when the International Stock Fund was added to the Plan,
14 it has underperformed its benchmark index, comparable Plan investments and
15 passively managed equivalents. For 2019 and year-to-date (as of Sept. 30, 2020),
16 the International Stock Fund underperformed its benchmark index by 879 bps to
17 1,118 bps, and underperformed the Vanguard Total World Stock Index Fund by
18 1,401 bps to 1,779 bps. Relative to the Vanguard Total International Stock Index,
19 the International Stock Fund underperformed by 879 bps to 1,179 bps.

20 87. Because the International Stock Fund had an inferior performance
21 history at the time of selection and flexPATH Strategies had insufficient experience
22 managing assets, the Wood Defendants and NFP failed to make a reasoned decision
23 that adding the actively managed fund to the Plan was in the best interest of Plan
24 participants or prudent, and failed to determine whether participants would be better

27 Templeton Funds, Form N-1A, Dec. 27, 2018; Morningstar.

28 ¹⁹ Vanguard Star Funds, Form N-1A, Feb. 22, 2018,
<https://www.sec.gov/Archives/edgar/data/736054/000093247118005104/star485b022018.htm>;
Templeton Funds, Form N-1A, Dec. 27, 2018; Morningstar.

1 served by other prudent and better performing alternatives available to the Plan
2 after considering all relevant factors. The decision to include the International Stock
3 in the Plan only served to benefit NFP and flexPATH Strategies.

4 88. By using the International Stock Fund as a Plan investment,
5 Defendants caused Plan participants to suffer performance losses. A prudent
6 alternative to the International Stock Fund was the Vanguard Total World Stock
7 Index Fund (VTWIX). Had the Wood Defendants used the Vanguard alternative
8 instead of the International Stock Fund, Plan participants would not have lost in
9 excess of \$5.1 million of their retirement savings.²⁰

10 **3. Core Bond Fund (I1).**

11 89. In late 2018, the Wood Defendants added the Core Bond Fund (I1) to
12 the Plan on the advice and recommendation of NFP. The Core Bond Fund replaced
13 the PIMCO Total Return Fund (PTTRX), which resulted in over \$57 million
14 mapped to that fund. As indicated *supra*, the Core Bond Fund is an affiliated
15 investment of NFP because flexPATH Strategies serves as the fund's subadvisor.

16 90. Using an active investment management strategy, the Core Bond Fund
17 seeks to achieve a total return from current income and capital appreciation by
18 investing in a diversified portfolio of fixed-income securities. Morningstar
19 classified the fund in the intermediate-term bond asset category and identifies the
20 Barclays U.S. Universal Bond Index as its benchmark. The Barclays U.S. Universal
21 Bond Index measures the performance of investment grade or high-yield U.S.
22 dollar-denominated, fixed-rate taxable bonds, including Treasuries, government-
23 related and corporate securities, and mortgage-backed securities.

24 91. The Core Bond Fund did not exist until January 2, 2018 when
25 flexPATH Strategies launched the fund. Wilmington Trust is the trustee and
26 flexPATH Strategies is the subadvisor of the fund. Rather than actually investing

27 _____
28 ²⁰ Plan losses have been brought forward through September 30, 2020 to account
for lost investment opportunity.

1 the underlying assets of the Core Bond Fund, flexPATH Strategies invests the
2 assets in an investment vehicle managed by an unaffiliated investment manager
3 called the Lord Abbett Total Return Trust II. The underlying investment strategy
4 seeks to outperform its benchmark by 100–150 bps gross of fees over a full market
5 cycle. The performance of the Core Bond Fund is based on the performance of the
6 Core Plus Total Return Composite restated to reflect fees and expenses of the
7 applicable share class.

8 92. The Core Bond Fund had far less than one year of performance history
9 at the time the Wood Defendants selected it for inclusion in the Plan. By December
10 31, 2018, when the Core Bond Fund was added to the Plan, the fund still had no
11 one-year performance. Although the underlying fund (Lord Abbett Total Return
12 Trust II) had a longer performance history, it was not made available to Plan
13 participants.

14 93. The Core Bond Fund charges 23 bps. In addition to the investment
15 management expenses charged by the investment manager (Lord Abbett & Co.,
16 LLC) of the underlying fund, flexPATH Strategies charges Plan participants
17 additional fees for its role as the subadvisor. These fees were excessive because
18 flexPATH Strategies did not actually invest the fund's underlying assets but rather
19 retained Lord Abbett to perform those services. This causes Plan participants to pay
20 higher expenses than would be charged if the Plan invested directly in the lowest-
21 share class of the underlying fund, thereby causing participants to suffer from lower
22 investment returns.

23 94. For example, Wilmington Trust offered the Lord Abbett Total Return
24 Trust II (Class 0TS), which charged 16 bps—over 30% less—for the same
25 investment managed by the same investment manager. The additional expenses
26 charged by flexPATH Strategies for the same investment only benefitted NFP and
27 flexPATH Strategies through additional advisory fee revenue to the detriment of
28 Plan participants.

1 95. The Core Bond Fund replaced the PIMCO Total Return Fund
2 (PTTRX), which was a comparable intermediate-term bond fund benchmarked to
3 the Barclays U.S. Aggregate Bond Index. The Barclays U.S. Aggregate Bond Index
4 is the most popular benchmark for the U.S. investment-grade market. The index
5 measures the investment grade, U.S. dollar denominated, fixed-rate taxable bond
6 market. As of December 31, 2017, the PIMCO Total Return Fund outperformed its
7 benchmark index over all reporting periods.²¹ It also outperformed the Lord Abbett
8 Total Return mutual fund over the trailing one- and three-year periods. The
9 historical performance of the PIMCO fund would not have caused a prudent
10 fiduciary to remove that option from the Plan in favor of an investment vehicle
11 offered by an inexperienced investment manager, particularly when that decision
12 directly benefited the Plan's fiduciary investment advisor.

13 96. The Core Bond Fund was also inferior to comparable funds in the
14 market. The Vanguard Intermediate-Term Bond Index Fund (Instl Plus) (VBIUX)
15 is a passively managed intermediate-term bond fund. Morningstar classified the
16 Vanguard index fund in the intermediate-term bond asset category and uses the
17 Barclays U.S. Aggregate Bond Index as its benchmark. The Vanguard index fund
18 charged substantially lower fees relative to the Core Bond Fund. In 2018,
19 flexPATH Strategies charged 23 bps compared to 4 bps charged by Vanguard,
20 which is 475% more.

21 97. Because the Core Bond Fund had an inferior performance history at
22 the time of selection and flexPATH Strategies had insufficient experience
23 managing assets, the Wood Defendants and NFP failed to make a reasoned decision
24 that adding the actively managed Core Bond Fund to the Plan was in the best
25 interest of Plan participants or prudent, and failed to determine whether participants
26 would be better served by other prudent and better performing alternatives available

27 ²¹ PIMCO Funds, Form N-1A, July 30, 2018,
28 https://www.sec.gov/Archives/edgar/data/810893/000119312518228168/d550613d485bpos.htm#chapter_2-sect1_11_5425.

1 to the Plan after considering all relevant factors. The decision to include the Core
2 Bond in the Plan only served to benefit NFP and flexPATH Strategies.

3 98. During the period the Core Bond Fund was included in the Plan, it has
4 underperformed its benchmark index, comparable Plan investments, and passively
5 managed equivalents. In particular, by underperforming its benchmark index, the
6 fund has consistently failed to meet its investment strategy by outperforming its
7 benchmark by 100–150 bps gross of fees. Despite this, the Wood Defendants
8 retained the fund as a Plan investment. By including the Core Bond Fund in the
9 Plan, Defendants caused Plan participants to suffer performance losses. A prudent
10 alternative to the Core Bond Fund was the Vanguard Intermediate-Term Bond
11 Index Fund (VBIUX). Had the Wood Defendants used the Vanguard alternative
12 instead of the Core Bond Fund, Plan participants would not have lost in excess of
13 \$3 million of their retirement savings.²²

14 **4. Large Cap Value Fund (I1).**

15 99. In late 2018, the Wood Defendants added the Large Cap Value Fund
16 (I1) to the Plan on the advice and recommendation of NFP. The Large Cap Value
17 Fund replaced the MFS Value Fund (MEIKX), which resulted in over \$84 million
18 mapped to that fund. As indicated *supra*, the Large Cap Value Fund is an affiliated
19 investment of NFP.

20 100. Using an active investment management strategy, the Large Cap Value
21 Fund seeks to outperform the market the long-term by employing a value-oriented
22 approach to identify potential opportunities by investing in large capitalization
23 securities and identifies the Russell 1000 Value Index as its benchmark. The
24 Russell 1000 Value Index measures the performance of the large-cap value segment
25 of domestic equity securities. The index includes companies within the Russell
26 1000 Index with lower price-to-book ratios and lower expected growth values.

27 _____
28 ²² Plan losses have been brought forward through September 30, 2020 to account
for lost investment opportunity.

1 101. The Large Cap Value Fund did not exist until December 3, 2018 when
2 flexPATH Strategies launched the fund. Wilmington Trust is the trustee and
3 flexPATH Strategies is the subadvisor of the fund. Rather than actually investing
4 the underlying assets of the Large Cap Value Fund, flexPATH Strategies invests
5 the assets in an investment vehicle managed by an unaffiliated investment manager
6 called the Putnam Large Cap Value Trust. The performance of the Large Cap Value
7 Fund is based on the performance of the Putnam's mutual fund equivalent, the
8 Putnam Equity Income Fund (R6) (PEQSX).

9 102. The Large Cap Value Fund charges 29 bps. In addition to the
10 investment management expenses charged by the investment manager (Putnam
11 Investment Management, LLC) of the underlying fund, flexPATH Strategies
12 charges Plan participants additional fees for its role as the subadvisor. These fees
13 were excessive given flexPATH Strategies hired Putnam Investment Management
14 to invest the Fund's underlying assets. This causes Plan participants to pay higher
15 expenses than would be charged if the Plan invested directly in the lowest-share
16 class of the underlying fund.

17 103. For instance, Putnam Fiduciary Trust Company offers the Putnam
18 Large Cap Value Trust in Class IB shares, which allowed plan fiduciaries to
19 negotiate a lower investment management fee directly with Putnam Fiduciary Trust
20 Company. As a result, the investment returns of the Putnam Large Cap Value Trust
21 (Class IB shares) provided higher returns than the Plan's Large Cap Value Fund.
22 By causing the Plan to invest in the Large Cap Value Fund, Defendants caused Plan
23 participants to pay unnecessary investment management fees, thereby reducing
24 their investment returns relative to the Putnam Large Cap Value Trust (IB).

25 **II. The Wood Defendants and NFP caused the Plan to pay unreasonable**
26 **investment management fees.**

27 104. Academic and financial industry literature demonstrate that high
28 expenses are not correlated with superior investment management. Indeed, funds

1 with high fees on average perform worse than less expensive funds even on a *pre-*
2 *fee basis*. Javier Gil-Bazo & Pablo Ruiz-Verdu, *When Cheaper is Better: Fee*
3 *Determination in the Market for Equity Mutual Funds*, 67 J. Econ. Behav. & Org.
4 871, 873 (2008); *see also* Jill E. Fisch, *Rethinking the Regulation of Securities*
5 *Intermediaries*, 158 U. Pa. L. Rev. 1961, 1993 (2010) (summarizing numerous
6 studies showing that “the most consistent predictor of a fund’s return to investors is
7 the fund’s expense ratio”).

8 [T]he empirical evidence implies that superior
9 management is not priced through higher expense ratios.
10 On the contrary, it appears that the effect of expenses on
11 after-expense performance (even after controlling for
12 funds’ observable characteristics) is more than one-to-
13 one, which would imply that low-quality funds charge
14 higher fees. Price and quality thus seem to be inversely
15 related in the market for actively managed mutual funds.

16 Gil-Bazo & Ruiz-Verdu, *When Cheaper is Better*, at 883.

17 105. When providing investments to plan participants, the importance of
18 fees cannot be overstated. Indeed, “the duty to avoid unwarranted costs is given
19 increased emphasis in the prudent investor rule” under the common law of trusts,
20 which informs ERISA’s fiduciary duties. Restatement (Third) of Trusts ch. 17,
21 intro. note (2007); *see Tibble*, 135 S. Ct. at 1828 (*citing* Restatement (Third) of
22 Trusts § 90 in finding a continuing duty to monitor under ERISA). As the
23 Restatement explains, “cost-conscious management is fundamental to prudence in
24 the investment function.” Restatement (Third) of Trusts § 90 cmt. b.

25 106. It is a simple principle of investment management that the larger
26 amount an investor has available to invest, the lower the investment management
27 fees that can be obtained in the market for a given investment vehicle. Large
28 retirement plans have substantial bargaining power to negotiate low fees for

1 investment management services. Multi-billion-dollar defined contribution plans,
2 such as the Plan, have even greater bargaining power.

3 107. Mutual funds and collective investment trusts frequently offer multiple
4 share classes. Because the only difference between the share classes is fees,
5 selecting higher-cost shares results in the plan paying wholly unnecessary fees.
6 Accordingly, absent a compelling reason to opt for the higher-cost version, prudent
7 fiduciaries will select the lowest-cost share class available to the plan. As a
8 prominent legal counsel to defined contribution fiduciaries explained:

9 The fiduciaries also must consider the size and purchasing
10 power of their plan and select the share classes (or
11 alternative investments) that a fiduciary who is
12 knowledgeable about such matters would select under the
13 circumstances. In other words, the “prevailing
14 circumstances”—such as the size of the plan—are a part
15 of a prudent decision making process. The failure to
16 understand the concepts and to know about the
17 alternatives could be a costly fiduciary breach.²³

18 108. Given the Plan’s size, the Plan had tremendous bargaining power to
19 obtain share classes with far lower costs than that of higher-cost shares. Lower-cost
20 share classes of mutual fund and collective investment trust investments were
21 readily available to the Plan. Minimum investment thresholds for the lowest-cost
22 institutional shares are routinely waived by the investment provider even if not
23 reached by a single fund.

24 For large 401(k) plans with over a billion dollars in total
25 assets...mutual funds will often waive an investment
26 minimum for institutional share classes. It is also common

27 _____
28 ²³ Fred Reish, *Class-ifying Mutual Funds*, PLANSPONSOR (Jan. 2011),
<http://www.plansponsor.com/MagazineArticle.aspx?id=6442476537>.

1 for investment advisors representing large 401(k) plans to
2 call mutual funds and request waivers of the investment
3 minimums so as to secure the institutional shares.

4 *Tibble v. Edison Int'l*, No. 07-5359, 2010 WL 2757153, at *9 (C.D. Cal. July 8,
5 2010), *affirmed* 729 F.3d 1110 (9th Cir. 2013).

6 109. In fact, Vanguard expressly “reserves the right to establish higher or
7 lower minimum amounts for certain investors”, including when the “plan sponsor’s
8 aggregate assets within the Vanguard Funds will likely generate substantial
9 economies in the servicing of their accounts.”²⁴

10 110. During the proposed class period, the Wood Defendants had the
11 fiduciary authority over the selection and retention of share classes used for the
12 Plan’s investments. On information and belief, as the Plan’s fiduciary investment
13 advisor, NFP advised the Wood Defendants regarding the share class to be used for
14 each Plan investment. Despite the fact that lower-cost shares for the exact same
15 investment option were available to the Plan, the Wood Defendants selected and
16 continue to retain higher-cost shares for Plan investments than were available to the
17 Plan based on its enormous size.

18 111. In 2015, the Wood Defendants provided the MFS Emerging Markets
19 Debt Fund (R4) (MEDGX) that charged 84 bps when lower-cost R5 shares
20 (renamed R6) (MEDHX) were available for 73 bps,²⁵ and the MFS Value (R4)
21 (MEIJX) that charged 62 bps when lower-cost R5 shares (renamed R6) (MEIKX)
22 were available for 50 bps.²⁶ This caused Plan participants to pay unnecessary and
23 unreasonable expenses for the identical investments. The Wood Defendants also

24 ²⁴ See Vanguard Funds Multiple Class Plan,
25 <https://www.sec.gov/Archives/edgar/data/1409957/000093247113007109/multipleclassplanvanguardfun.pdf>.

26 ²⁵ MFS Series Trust X, Form N-CSR, July 31, 2015,
27 https://www.sec.gov/Archives/edgar/data/783740/000119312515328385/d90069dncsr.htm#tx90069_5.

28 ²⁶ MFS Series Trust I, Form N-CSR, Aug. 31, 2015,
<https://www.sec.gov/Archives/edgar/data/798244/000119312515367579/d66368dncsr.htm>.

1 provided the Vanguard 500 Index Fund (VFIAX) (Admiral shares) that charged 5
2 bps when the lower-cost Institutional Plus shares (VIIIX) were available for 2 bps,
3 a cost savings of 60%.²⁷

4 112. During the fourth quarter of 2018, the Wood Defendants added the
5 Vanguard Target Retirement target date funds to the Plan. By December 31, 2018,
6 the Plan invested over \$1 billion in these target date funds. From 2018 through the
7 present, the Wood Defendants selected and maintained the Trust Plus shares that
8 charge 7 bps when the lower cost Select shares were available for 5 bps, a cost
9 savings of almost 30%. Moreover, as indicated *supra*, the Wood Defendants used
10 the flexPATH funds when lower-cost versions of the underlying funds were
11 available to the Plan.

12 113. According to the Plan's Forms 5500, none of the higher-cost shares of
13 the Plan's investments identified herein paid revenue sharing that was used by the
14 Wood Defendants to offset Plan expenses charged by service providers.

15 114. By providing Plan participants the more expensive share classes of
16 Plan investment options, the Wood Defendants caused participants to lose
17 substantial retirement savings.²⁸

18 CLASS ACTION ALLEGATIONS

19 115. 29 U.S.C. §1132(a)(2) authorizes any participant or beneficiary of the
20 Plan to bring an action individually on behalf of the Plan to enforce a breaching
21 fiduciary's liability to the Plan under 29 U.S.C. §1109(a).

22 116. In acting in this representative capacity and to enhance the due process
23 protections of unnamed participants and beneficiaries of the Plan, as an alternative

nalindex_final.htm).

28 ²⁸ Plan Tosses have been carried forward through December 31, 2020 using the
investment return of an S&P 500 index fund, the Vanguard Institutional Index
(VIIIX), to account for lost investment returns on those assets.

1 to direct individual actions on behalf of the Plan under 29 U.S.C. §1132(a)(2),
2 Plaintiffs seek to certify this action as a class action on behalf of all Plan
3 participants and beneficiaries. Plaintiffs seek to certify the follow class:

4 All participants and beneficiaries of the Wood 401(k) Plan from February 16,
5 2015 through the date of judgment, excluding Defendants and members of
6 the Committee of the Wood 401(k) Plan.

7 117. This action meets the requirements of Rule 23 and is certifiable as a
8 class action for the following reasons:

9 a. The Class include over 10,000 members and are so large that
10 joinder of all its members is impracticable.

11 b. There are questions of law and fact common to the Class
12 because Defendants owed fiduciary duties to the Plan and to all participants
13 and beneficiaries and took the actions and made omissions alleged herein as
14 to the Plan and not as to any individual participant. Thus, common questions
15 of law and fact include the following, without limitation: who are the
16 fiduciaries liable for the remedies provided by 29 U.S.C. §1109(a); whether
17 the fiduciaries of the Plan breached their fiduciary duties to the Plan; what
18 are the losses to the Plan resulting from each breach of fiduciary duty; and
19 what Plan-wide equitable and other relief the court should impose in light of
20 Defendants' breaches of duty.

21 c. Plaintiffs' claims are typical of the claims of the Class because
22 each Plaintiff was a participant during the time period at issue in this action
23 and all participants in the Plan were harmed by Defendants' misconduct.

24 d. Plaintiffs are adequate representatives of the Class because they
25 were participants in the Plan during the Class period, have no interest that is
26 in conflict with any other member of the Class, are committed to the vigorous
27 representation of the Class, and have engaged experienced and competent
28 attorneys to represent the Class.

1 e. Prosecution of separate actions for these breaches of fiduciary
2 duties by individual participants and beneficiaries would create the risk of
3 (A) inconsistent or varying adjudications that would establish incompatible
4 standards of conduct for Defendants in respect to the discharge of their
5 fiduciary duties to the Plan and personal liability to the Plan under 29 U.S.C.
6 §1109(a), and (B) adjudications by individual participants and beneficiaries
7 regarding these breaches of fiduciary duties and remedies for the Plan would,
8 as a practical matter, be dispositive of the interests of the participants and
9 beneficiaries not parties to the adjudication or would substantially impair or
10 impede those participants' and beneficiaries' ability to protect their interests.
11 Therefore, this action should be certified as a class action under Rule
12 23(b)(1)(A) or (B).

13 118. A class action is the superior method for the fair and efficient
14 adjudication of this controversy because joinder of all participants and beneficiaries
15 is impracticable, the losses suffered by individual participants and beneficiaries
16 may be small and impracticable for individual members to enforce their rights
17 through individual actions, and the common questions of law and fact predominate
18 over individual questions. Given the nature of the allegations, no class member has
19 an interest in individually controlling the prosecution of this matter, and Plaintiffs
20 are aware of no difficulties likely to be encountered in the management of this
21 matter as a class action. Alternatively, then, this action may be certified as a class
22 under Rule 23(b)(3) if it is not certified under Rule 23(b)(1)(A) or (B).

23 119. Plaintiffs' counsel, Schlichter Bogard & Denton, LLP, will fairly and
24 adequately represent the interests of the Class and is best able to represent the
25 interests of the Class under Rule 23(g). Schlichter Bogard & Denton has been
26 appointed as class counsel in over 30 other ERISA class actions regarding
27 excessive fees in large defined contribution plans. Courts in these cases have
28 consistently and repeatedly recognized the firm's unparalleled success in the area of

1 defined contribution excessive fee litigation.

2 120. Judge Michael Ponsor of the United States District Court for the
3 District of Massachusetts found that Schlichter, Bogard & Denton had achieved an
4 “outstanding result for the class,” and “demonstrated extraordinary resourcefulness,
5 skill, efficiency and determination.” *Gordan v. Mass Mutual Life Ins., Co.*, No. 14-
6 30184, Doc. 144 at 5 (D. Mass. Nov. 3, 2016). Chief Judge Michael J. Reagan of
7 the Southern District of Illinois recognized that the firm had shown “exceptional
8 commitment and perseverance in representing employees and retirees seeking to
9 improve their retirement plans,” and “demonstrated its well-earned reputation as a
10 pioneer and the leader in the field” of 401(k) plan excessive fee litigation. *Abbott v.*
11 *Lockheed Martin Corp.*, No. 06-701, 2015 WL 43984750, at *1 (S.D. Ill. July 17,
12 2015). Judge Harold Baker of the Central District of Illinois acknowledged the
13 significant impact of the firm’s work, finding that as of 2013, the nationwide “fee
14 reduction attributed to Schlichter, Bogard & Denton’s fee litigation and the
15 Department of Labor’s fee disclosure regulations approach \$2.8 billion in annual
16 savings for American workers and retirees.” *Nolte v. Cigna Corp.*, No. 07-2046,
17 2013 WL 12242015, at *2 (C.D. Ill. Oct. 15, 2013) (emphasis added).

18 121. Other courts have made similar findings. *See, e.g., Marshall v.*
19 *Northrop Grumman Corp.*, No. 16-6794 AB (JCX), 2020 WL 5668935, at *4 (C.D.
20 Cal. Sept. 18, 2020) (“The Court finds that Schlichter, Bogard & Denton is
21 exceptionally skilled having achieved unparalleled success in actually pioneering
22 complex ERISA 401(k) excessive fee litigation[.]”); *Kelly v. Johns Hopkins Univ.*,
23 No. 16-2835, 2020 WL 434473, at *2 (D. Md. Jan. 28, 2020) (Schlichter, Bogard &
24 Denton “pioneered this ground-breaking and novel area of litigation” that has
25 “dramatically brought down fees in defined contribution plans”); *Bell v. Pension*
26 *Comm. of ATH Holding Co.*, No. 15-2062, 2019 WL 4193376, at *2 (S.D. Ind.
27 Sept. 4, 2019) (the firm are “experts in ERISA litigation”); *Spano v. Boeing Co.*,
28 No. 06-743, Doc. 587, at 5–6 (S.D. Ill. Mar. 31, 2016) (“The law firm Schlichter,

1 Bogard & Denton has significantly improved 401(k) plans across the country by
2 bringing cases such as this one[.]” (internal quotations omitted); *Beesley v. Int’l*
3 *Paper Co.*, No. 06-703, 2014 WL 375432, at *2 (S.D. Ill. Jan. 31, 2014)
4 (“Litigating this case against formidable defendants and their sophisticated
5 attorneys required Class Counsel to demonstrate extraordinary skill and
6 determination.”); *George v. Kraft Foods Global, Inc.*, No. 08-3799, 2012 WL
7 13089487, at *2 (N.D. Ill. June 26, 2012) (“It is clear to the Court that the firm of
8 Schlichter, Bogard & Denton is preeminent in the field” “and is the only firm which
9 has invested such massive resources in this area.”); *Will v. General Dynamics*
10 *Corp.*, No. 06-698, 2010 WL 4818174, at *3 (S.D. Ill. Nov. 22, 2010) (“Schlichter,
11 Bogard & Denton’s work throughout this litigation illustrates an exceptional
12 example of a private attorney general risking large sums of money and investing
13 many thousands of hours for the benefit of employees and retirees.”).

14 122. Schlichter, Bogard & Denton handled the first full trial of an ERISA
15 excessive fee case, resulting in a \$36.9 million judgment for the plaintiffs that was
16 affirmed in part by the Eighth Circuit. *Tussey v. ABB, Inc.*, 746 F.3d 327 (8th Cir.
17 2014). In awarding attorney’s fees after trial, the district court concluded that
18 “Plaintiffs’ attorneys are clearly experts in ERISA litigation.” *Tussey v. ABB, Inc.*,
19 No. 06-4305, 2012 WL 5386033, at *3 (W.D. Mo. Nov. 2, 2012). Following
20 remand, the district court again awarded Plaintiffs’ attorney’s fees, emphasizing the
21 significant contribution Plaintiffs’ attorneys have made to ERISA litigation,
22 including educating the Department of Labor and federal courts about the
23 importance of monitoring fees in retirement plans:

24 Of special importance is the significant, national contribution made by
25 the Plaintiffs whose litigation clarified ERISA standards in the context
26 of investment fees. The litigation educated plan administrators, the
27 Department of Labor, the courts and retirement plan participants about
28 the importance of monitoring recordkeeping fees and separating a

1 fiduciary’s corporate interest from its fiduciary obligations.

2 *Tussey v. ABB, Inc.*, No. 06-4305, 2015 WL 8485265, at *2 (W.D. Mo. Dec. 9,
3 2015).

4 123. Schlichter, Bogard & Denton was also class counsel in and handled
5 *Tibble v. Edison International*, 135 S. Ct. 1823 (2015), the first and only Supreme
6 Court case to address the issue of excessive fees in a defined contribution plan—in
7 which the Court held in a unanimous 9–0 decision that ERISA fiduciaries have “a
8 continuing duty to monitor investments and remove imprudent ones[.]” *Id.* at 1829.
9 Schlichter, Bogard & Denton successfully petitioned for a writ of certiorari, and
10 obtained amicus support from the United States Solicitor General and AARP,
11 among others. Given the Court’s broad recognition of an ongoing fiduciary duty,
12 the *Tibble* decision will affect all ERISA defined contribution plans.

13 **COUNT I: BREACH OF FIDUCIARY DUTIES (29 U.S.C. §1104(A)(1))**
14 **RELATED TO THE FLEXPATH FUNDS**

15 124. Plaintiffs restate and incorporate the allegations contained in the
16 preceding paragraphs.

17 125. This Count alleges breach of fiduciary duties against the Wood
18 Defendants and NFP.

19 126. These Defendants were required to act “solely in the interest” of
20 participants and to manage the assets of the Plan for the “exclusive purpose of
21 providing benefits to participants and their beneficiaries, and defraying reasonable
22 expenses of administering the Plan”, and “with the care, skill, prudence, and
23 diligence under the circumstances then prevailing that a prudent man acting in a
24 like capacity and familiar with such matters would use in the conduct of an
25 enterprise of a like character and with like aims”. 29 U.S.C. §1104(a)(1)(A)–(B).
26 Defendants were directly responsible for selecting prudent investment options,
27 evaluating and monitoring the Plan’s investments on an ongoing basis and
28 eliminating imprudent designated investment alternatives, and taking all necessary

1 steps to ensure that the Plan's assets were invested prudently. As the Supreme
2 Court confirmed, ERISA's "duty of prudence involves a continuing duty to monitor
3 investments and remove imprudent ones[.]" *Tibble*, 135 S. Ct. at 1829.

4 127. Defendants breached their duties of loyalty and prudence under 29
5 U.S.C. §1104(a)(1)(A) and (B) by selecting and retaining the flexPATH funds in
6 the Plan. Instead of acting solely in the interest of Plan participants, Defendants
7 provided the flexPATH funds as Plan investments because of the benefits they
8 provided to the NFP Defendants, which came at the expense of participants'
9 retirement savings. While the NFP Defendants received millions of dollars in Plan
10 assets for their investment management business and significant fee revenues,
11 participants sustained massive losses in retirement savings due to high fees and
12 poor performance. Moreover, the Wood Defendants and NFP failed to engage in a
13 reasoned decision-making process to determine that using the flexPATH funds was
14 in the best interests of Plan participants or prudent, and failed to determine whether
15 participants would be better served by other prudent and better performing
16 alternatives available to the Plan after considering all relevant factors. The Wood
17 Defendants' and NFP's decision to add the proprietary flexPATH funds caused the
18 Plan and participants to incur significant losses.

19 128. Total Plan losses will be determined at trial after complete discovery in
20 this case and are continuing.

21 129. Each Defendant is personally liable under 29 U.S.C. §1109(a) to make
22 good to the Plan any losses to the Plan resulting from the breaches of fiduciary
23 duties alleged in this Count and is subject to other equitable or remedial relief as
24 appropriate.

25 130. Each Defendant knowingly participated in the breach of the other
26 Defendants, knowing that such acts were a breach, enabled the other Defendants to
27 commit a breach by failing to lawfully discharge its own fiduciary duties, knew of
28 the breach by the other Defendants and failed to make any reasonable effort under

1 the circumstances to remedy the breach. Thus, each Defendant is liable for the
2 losses caused by the breach of its co-fiduciary under 29 U.S.C. §1105(a).

3 **COUNT II: BREACH OF FIDUCIARY DUTIES (29 U.S.C. §1104(A)(1))**
4 **RELATED TO UNREASONABLE INVESTMENT MANAGEMENT FEES**

5 131. Plaintiffs restate and incorporate the allegations contained in the
6 preceding paragraphs.

7 132. This Count alleges breach of fiduciary duties against the Wood
8 Defendants and NFP.

9 133. These Defendants breached their duties of loyalty and prudence under
10 29 U.S.C. §1104(a)(1)(A) and (B) by selecting and retaining as Plan investment
11 options higher-cost shares of mutual funds and collective investment trusts that
12 charged unreasonable investment management fees relative to other investment
13 options that were available to the Plan at all relevant times, including separately
14 managed accounts, collective investment trusts, lower-cost share classes for the
15 Plan's mutual fund and collective investment trust investments with the identical
16 investment manager and investments.

17 134. Total Plan losses will be determined at trial after complete discovery in
18 this case and are continuing.

19 135. Each Defendant is personally liable under 29 U.S.C. §1109(a) to make
20 good to the Plan any losses to the Plan resulting from the breaches of fiduciary
21 duties alleged in this Count and is subject to other equitable or remedial relief as
22 appropriate. Each Defendant knowingly participated in the breach of the other
23 Defendants, knowing that such acts were a breach, enabled the other Defendants to
24 commit a breach by failing to lawfully discharge its own fiduciary duties, knew of
25 the breach by the other Defendants and failed to make any reasonable effort under
26 the circumstances to remedy the breach. Thus, each Defendant is liable for the
27 losses caused by the breach of its co-fiduciary under 29 U.S.C. §1105(a).

28

1 Defendants and NFP caused the Plan to suffer losses in the reduction of Plan assets
2 in amount of the payments to NFP and flexPATH Strategies and the lost investment
3 returns on those assets.

4 141. Even if flexPATH Strategies did not act as a fiduciary over the
5 selection and retention of the flexPATH funds, it is still liable as a non-fiduciary
6 “party in interest”, who knowingly participated in a prohibited transaction. Under
7 29 U.S.C. §1132(a)(3), a court may award “other appropriate equitable relief” to
8 redress “any act or practice” that violates ERISA. A nonfiduciary transferee of ill-
9 gotten proceeds is subject to equitable relief if it had actual or constructive
10 knowledge of the circumstances that rendered the transaction or payment unlawful.

11 142. flexPATH Strategies had such actual or constructive knowledge that
12 the Plan’s investment in the flexPATH funds and payment of Plan assets to
13 flexPATH Strategies were unlawful. flexPATH Strategies knew or should have
14 known that NFP, whose CEO and President own up to 75% of flexPATH Strategies
15 and its executive officers operate and control flexPATH Strategies, was engaged in
16 unlawful self-dealing by causing the Plan to invest in its affiliated investments to
17 enrich itself and flexPath Strategies.

18 143. flexPATH Strategies has not dissipated the entirety of the proceeds on
19 nontraceable items and the proceeds can be traced to particular funds or property in
20 flexPATH Strategies’ possession.

21 144. Each Defendant is personally liable under 29 U.S.C. §1109(a) to make
22 good to the Plan any losses to the Plan resulting from the breaches of fiduciary
23 duties and prohibited transactions alleged in this Count and to restore to the Plan all
24 profits through their use of Plan assets, and is subject to other equitable or remedial
25 relief as appropriate, including removal as a Plan fiduciary.

26 **COUNT IV: FAILURE TO MONITOR FIDUCIARIES**

27 145. Plaintiffs restate and incorporate the allegations contained in the
28 preceding paragraphs.

1 146. This Count is asserted against the Wood Defendants.

2 147. Wood Group U.S. Holdings, Inc., and previously Wood Group
3 Management Services, Inc., oversaw the overall governance of the Plan and had the
4 authority to delegate any of their fiduciary responsibilities. Wood Group U.S.
5 Holdings, Inc. appointed the Fiduciary Committee with authority over the selection,
6 monitoring and removal of Plan investments and service providers, including NFP
7 as the Plan's fiduciary investment advisor.

8 148. A monitoring fiduciary must ensure that the person to whom it
9 delegates fiduciary duties is performing its fiduciary obligations, including those
10 with respect to the investment and holding of plan assets, and must take prompt and
11 effective action to protect the plan and participants when the delegate fails to
12 discharge its duties. To the extent any of the fiduciary responsibilities of the Wood
13 Defendants were delegated to another fiduciary, their monitoring duties included an
14 obligation to ensure that any delegated tasks were being performed in accordance
15 with ERISA's fiduciary standards.

16 149. The Wood Defendants breached their fiduciary monitoring duties by,
17 among other things:

- 18 a. failing to monitor their appointees and delegees, to evaluate their
19 performance, or to have a system in place for doing so, and standing
20 idly by as the Plan suffered enormous losses as a result of their
21 appointees' imprudent actions and omissions with respect to the Plan;
- 22 b. failing to monitor their appointees' fiduciary process, which would
23 have alerted any prudent fiduciary to the potential breach because of
24 the imprudent investment options in violation of ERISA;
- 25 c. failing to ensure that the monitored fiduciaries considered the ready
26 availability of comparable and better performing investment options
27 that charged significantly lower fees and expenses than the Plan's
28 investments; and

1 d. failing to remove appointees and delegees whose performance was
2 inadequate in that they continued to allow unreasonable fees to be
3 charged to Plan participants or imprudent investment options to be
4 selected and retained in the Plan, all to the detriment of Plan
5 participants' retirement savings.

6 150. As a direct result of these breaches of fiduciary duty to monitor, the
7 Plan suffered substantial losses. Had the Wood Defendants and the other delegating
8 fiduciaries discharged their fiduciary monitoring duties prudently as described
9 above, the Plan would not have suffered these losses.

10 **JURY TRIAL DEMANDED**

11 151. Under Fed. R. Civ. P. 38 and the Constitution of the United States,
12 Plaintiffs demand a trial by jury.

13 **PRAYER FOR RELIEF**

14 For these reasons, Plaintiffs, on behalf of the Plan and all similarly situated
15 Plan participants and beneficiaries, respectfully request that the Court:

- 16 • find and declare that Defendants have breached their fiduciary duties
17 as described above;
- 18 • find and adjudge that Defendants are personally liable to make good
19 to the Plan all losses to the Plan resulting from each breach of
20 fiduciary duty and prohibited transaction, and to otherwise restore
21 the Plan to the position they would have occupied but for the
22 breaches of fiduciary duty;
- 23 • order the disgorgement of all amounts paid by the Plan to NFP and
24 flexPATH Strategies;
- 25 • determine the method by which Plan losses under 29 U.S.C.
26 §1109(a) should be calculated;
- 27 • order Defendants to provide all accountings necessary to determine
28 the amounts Defendants must make good to the Plan under §1109(a);

- remove the fiduciaries who have breached their fiduciary duties and enjoin them from future ERISA violations;
- surcharge against Defendants and in favor of the Plan all amounts involved in any transactions which such accounting reveals were improper, excessive and/or in violation of ERISA;
- certify the Class, appoint each of the Plaintiffs as a class representative, and appoint Schlichter, Bogard & Denton LLP as Class Counsel;
- award to the Plaintiffs and the Class their attorney’s fees and costs under 29 U.S.C. §1132(g)(1) and the common fund doctrine;
- order the payment of interest to the extent it is allowed by law; and
- grant other equitable or remedial relief as the Court deems appropriate.

February 16, 2021

Respectfully submitted,

s/ Jerome J. Schlichter
